

Enersize invites to investor meeting in connection with ongoing rights issue – focus on technology, results and future outlook

In connection with the ongoing rights issue, Enersize invites shareholders, investors, and other stakeholders to an investor meeting at the company's office in Lund on 27 May 2025. It will also be possible to participate digitally via a link.

The purpose of the investor meeting is to provide a transparent and open overview of Enersize's development, the business value of its technology, and the company's future goals. This is an opportunity to meet the management team, ask questions, and gain a deeper understanding of the company's direction going forward.

Enersize will also launch a new informational video, offering an inspiring insight into the company's technology, business model, and future ambitions. The video will be published shortly on the company's LinkedIn channel and website (www.enersize.com).

Location: Enersize office, Traktorvägen 6C, Lund

Time: 27 May 2025, 17:30 (CEST)

Digital participation: Link will be provided upon registration

Registration: To attend – on-site or online – please register by emailing info@enersize.com

For more information about the rights issue, please refer to the information memorandum and the key information document, which are available on the company's website:

About Enersize

Enersize develops and provides specialized software, tools, and services for improving energy efficiency in industrial compressed air systems – one of the most energy-intensive processes in manufacturing. The company's technology platform enables detailed monitoring, analysis, and real-time optimization of compressed air systems, with the aim of reducing energy consumption, detecting leaks, and improving operational performance.

Enersize works with a wide range of industrial companies that recognize energy efficiency as a strategic priority – both for improving financial performance and for reducing environmental impact. The solutions are scalable and designed to integrate seamlessly into both existing and new system environments.

The company is listed on Nasdaq Stockholm First North Growth Market under the ticker: ENERS.
