

Moaxtek joins CTS to lead the group's expansion of wheel alignment services

Last year, Colmec, Lapin Kumi, and several tire shops across Sweden and Finland came together to form a new tire services group, which is currently operating under the working name CTS. Today, Moaxtek are announcing their accession to CTS where they will lead the group's provision of wheel alignment services.

Patrik Johansson left Colmec in 2018 to form Moaxtek. The company has since grown to become a leading provider of wheel alignment services to customers across Sweden. The success is based on a combination of outstanding customer service, a mobile service delivery model and a decentralised organisational structure with technicians located close customers in various parts of the country. As a result, the Moaxtek team has won the trust of a wide range of freight hauling companies and tire workshops.

"We are very excited to welcome Patrik and the Moaxtek team to CTS Group. With a differentiated business model and strong customer commitment, Moaxtek has earned an unparalleled reputation across Sweden. We look forward to supporting and expanding the team which will help us deliver sustainable tire services across our group." says David Boman, CEO för CTS.

"We have always had a clear vision for Moaxtek's future and see this new partnership as great opportunity for our continued growth. Together with CTS, we will be able to grow in Sweden and into our neighbouring countries in the Nordics. Through this transaction we will also create an unparalleled footprint in the Swedish market when it comes to mobile wheel alignment services for heavy vehicles. We look forward to strengthening our cooperation with this large group of entrepreneurs" says Patrik Johansson, cofounder of Moaxtek.

Moaxtek will continue to operate under the same name and with the same team. Patrik will remain operational in the company and become a co-owner of CTS.

About CTS

CTS is the working name for a new circular, customer-centric tire services group. We help vehicle users maximize uptime and mileage by servicing tires in a convenient and life-extending manner. For commercial vehicle tires, we operate a fully circular model – extending the useful life of tires well beyond their normal lifespan.

We are home to 700 employees across Sweden, Finland, Norway, and Poland. We operate 40+ tire shops and 4 retreading facilities. Our mission is to keep society moving in a seamless, less wasteful way
