Invitation to Freemelt's investor update

Freemelt invites investors and other interested parties to a digital investor update on 1 December at 09:00 CET.

Freemelt has entered Chapter 3, a new phase of its development, responding to a clear shift in market demand from equipment towards qualified components and manufacturing capacity. This expands the company's addressable market significantly and creates the foundation for an increasingly recurring revenue model.

In connection with the ongoing rights issue, CEO Daniel Gidlund and CFO Martin Granlund will present how recent orders validate the Manufacturing business, the opportunity to build a European platform for sovereign manufacturing, and how the combination of Production Systems and Manufacturing supports the company's path to profitability and long-term growth.

Date: 1 December 2026
Time: 09:00–10:00 CET

Link to the event: https://youtube.com/live/D_wtOQbfAH4

Questions can be submitted before the event via fraga@investorstudios.se

About Us

Freemelt builds Europe's industrial platform for advanced metal components. Through a combination of advanced E-PBF technology (Electron Beam Powder Bed Fusion), materials expertise and industrial manufacturing capacity, Freemelt supports customers within MedTech, defense, fusion and other advanced industrial verticals.

The company offers two complementary business lines: Production Systems and Manufacturing. Production Systems offers advanced E-PBF application development and aftermarket services to customers building inhouse additive manufacturing capacity. Manufacturing focuses on advanced metal components, supporting customers with component design, process development, qualification, inspection and industrial delivery.

By combining technology leadership with industrial manufacturing capability, Freemelt expands its footprint in the value chain. The company's ambition is to build a stronger, more resilient and recurring business while establishing a European platform for additive manufacturing in metals.

Freemelt was founded in 2017 and is listed on Nasdaq First North Growth Market. Read more at www.freemelt.com.
