

## Desenio Group establishes new logistics center in the Czech Republic

**Desenio Group opens a new logistics center in Bor, Czech Republic, this autumn. Initially, the center will handle deliveries to markets in Europe outside the Nordic region.**

The premises are entirely newly built and the technology is designed to ensure an efficient, scalable process and fast delivery times.

- With our new logistics center, we get closer to most of our European customers outside the Nordic region, which results in shorter lead times and less environmental impact. As a consequence, we also reduce our logistics costs, says Fredrik Palm, CEO of Desenio Group.

In connection with the establishment, a new company will be started within Desenio Group; DGFC s.r.o.
