

UNC Health Enters Master Agreement with QleanAir Scandinavia to Provide Pharmacy Consulting Services

UNC Health Pharmacy Solutions, a subsidiary of UNC Health, has taken a significant step to enhance healthcare quality across the United States. The organization has officially signed a groundbreaking contract with QleanAir Scandinavia, a leading provider of clean indoor environment solutions. This agreement will see UNC Health Pharmacy Solutions provide premier pharmacy consulting services to pharmacies nationwide.

In a strategic partnership designed to revolutionize healthcare environments, UNC Health Pharmacy Solutions will deploy a dedicated team of experts, including Pharmacists, Pharmacy Managers, and Executive Directors, to collaborate with QleanAir Scandinavia. Together, they aim to assist hospitals in the creation and optimization of purpose-driven pharmacies and cleanrooms. The primary objective is to ensure the highest standards of quality, safety, and efficiency in pharmaceutical care.

Lindsey Amerine, System Executive Director of Pharmacy at UNC Health, expressed her enthusiasm about the collaboration: "Our mission is to improve healthcare quality, and this partnership with QleanAir is a significant leap toward that goal. We are excited to offer our expertise in pharmacy operations and management to hospitals across the nation. This collaboration will elevate the standards of pharmacy and cleanroom facilities, ultimately benefiting patient care."

Amanda Myers, Chief Commercial Officer at QleanAir Scandinavia, also shared her thoughts on the partnership: "QleanAir is dedicated to creating clean indoor environments that support health and well-being. Our collaboration with UNC Health Pharmacy Solutions aligns perfectly with our mission. Together, we will set new standards for pharmacy and cleanroom design, ensuring that healthcare facilities can provide the best possible care to their patients."

This partnership reflects the commitment of both organizations to innovation and excellence in healthcare and pharmaceutical services.
