

OX2 appoints Steve Symons new Vice president Australia

OX2 has appointed Steve Symons new Vice President, OX2 Australia, who will take on his new position as of May 13.

Steve Symons has about 20 years of experience in the renewable energy sector. Most recently he worked at Tilt Renewables, where he served as CFO for eight years, as well as interim the CEO position. Tilt Renewables is one of the largest and leading developers, owners, and managers of renewable energy generation assets in Australia.

- We are happy to have Steve onboard and look forward to working with him to further develop our operations in Australia. It is a big market with huge potential. OX2 has expanded its geographical presence to both the east and west coast and are active in onshore wind as well as solar and energy storage. Steve's experience and knowledge in the market will be valuable, says Paul Stormoen, CEO, OX2.

- I'm excited to join OX2 during a transformative period for renewable energy in Australia. OX2's global expertise and ambitious approach align perfectly with the opportunities in this dynamic market. I look forward to leading our efforts to accelerate the transition to sustainable energy and deliver long-term value for communities, partners, and future generations, says Steve Symons.

In 2023 OX2 acquired the leading renewable developer ESCO Pacific in Australia. Since then, the company has sold its first solar farm and project rights for two solar projects. OX2 has also acquired its first onshore wind power project in Australia. The project, which is in an early stage, has a planned installed capacity of 1 GW. The total development portfolio in Australia is 2,418 MW and OX2 is active in solar, onshore wind and energy storage.
