We support  
our customers with  
their green transition by  
replacing hidden plastics  
and harmful chemicals  
with biobased  
solutions.

OrganoClick®

# INTERIM REPORT

## JANUARY – DECEMBER 2025

### OCTOBER TO DECEMBER

- Net sales SEK 18,365 (21,428) thousand.
- Revenue growth -14.3 (23.2) percent.
- EBIT SEK -18,339 (-6,876) thousand.
- Adjusted EBIT of SEK -10,639 (-6,876) thousand excluding SEK 7 700 thousand in restructuring costs and write-down of obsolete inventory.
- Cash flow from operating activites SEK 2,968 (4,704) thousand.
- Earnings per share before and after dilution SEK -0.17 (-0.09).

### EVENTS DURING THE QUARTER

- OrganoClick announced and implemented an efficiency program that, at full effect, will result in a cost reduction of SEK 20 million (of which SEK 16 million in OrganoClick AB and SEK 4 million in OrganoWood AB). Restructuring costs and write-downs of obsolete inventory of approximately SEK 7.7 million have been reserved for the quarter.
- OrganoClick's brand Biokleen signed a framework agreement with Mestergruppen Sverige.

### JANUARY TO DECEMBER

- Net sales SEK 106,190 (127,227) thousand.
- Revenue growth -16.5 (-12.8) percent.
- EBIT SEK -31,567 (-9,861) thousand.
- Adjusted EBIT of SEK -22,567 (-9,861) thousand excluding SEK 9 000 thousand in restructuring costs and write-down of obsolete inventory.
- Cash flow from operating activites SEK -8,290 (3,602) thousand.
- Earnings per share before and after dilution SEK -0.36 (-0.18).
- The Board of Directors proposes to the Annual General Meeting that no dividend be paid for the financial year 2025.

### EVENTS AFTER THE QUARTER

- Löplabett becomes a new reseller for OrganoTex.
- Swiss retailer Ochsner Sport becomes a new reseller for OrganoTex.
- OrganoClick announces a new naming structure for its business units; Nonwoven technologies, Consumer applications and Wood protection.

Financial overview, SEK 000s	Oct-Dec 2025	Oct-Dec 2024	Jan-Dec 2025	Jan-Dec 2024
Net sales	18,365	21,428	106,190	127,227
Revenue growth, %	-14.3	-23.2	-16.5	-12.8
Gross margin, %	-24.4	12.7	14.0	25.0
EBIT	-18,339	-6,876	-31,567	-9,861
Cash flow from operating activities	2,968	4,704	-8,290	3,602

**First page:** Ahlstrom's BioProtect™ is an advanced nonwoven solution designed to prevent color runs during laundry. It is Made Green Inside thanks to our biobased binder.

# A word from the CEO

## **Positive sales growth for our binders, but continued challenges in our other segments**

The fourth quarter was characterised by both progress and challenges. Sales of our binders continued to develop positively with good growth, while the demand for our consumer and construction-related products remained weak. In order to adapt the business to the lower sales volumes and strengthen the path to profitability, we implemented a savings program of SEK 20 million during the quarter. At the same time, we are now seeing clear signs of increasing demand for 2026 – both from existing and new customers – especially in our green chemical products, which gives a positive indication for the coming period.

### **Financial performance fourth quarter**

During the fourth quarter, the Group had a sales reduction of -14.3% (-23.2%) to SEK 18.4 (21.4) million. On the other hand, sales increased by 17% for the Nonwoven & Fiber Technologies business unit, while sales decreased by -16% for Green Coatings & Maintenance Products and by -42% for Functional Wood. During the quarter, a savings program of SEK 20 million was implemented that will have almost full effect from January 2026. In connection with this, restructuring costs and write-downs of inventory totalling SEK 7.7 million were reserved. Operating profit (adjusted for the non-recurring costs of SEK 7.7 million) was thus SEK -10.6 (-6.9) million. For the full year 2025, sales amounted to SEK 106.2 (127.2) million. Including previously implemented write-downs of inventory, the year's total non-recurring costs were approximately SEK 9 million. Operating profit for the full year 2025, adjusted for non-recurring costs, was thus SEK -22.6 (-9.9) million.

### **Nonwoven & fiber technologies**

For the Nonwoven & Fiber Technologies business area, sales increased by 17% (-25%) to SEK 7.9 (6.8) million. The positive effect was partly due to a volume shift from the third quarter, but also from a slightly improved market for the hotel and restaurant sector. This trend seems set to continue in the first half of 2026, but with a weaker first quarter and a stronger second quarter due to production planning of a large customer. In 2026, we also estimate that we will receive additional sales from new customers who are planning to launch wipes and food pads.

### **Green Coatings & Maintenance Products**

For the Green Coatings & Maintenance Products business area, sales decreased by -16% (4%) to SEK 6.3 (7.5) million. The

drop came from a very weak December where we had a drop in sales in most product segments. Ahead of 2026, a private label deal for BIOkleen has also been completed that would no longer be profitable for the Group. This will have a negative sales effect of SEK -4.5 million, especially in the first quarter, but have a limited effect on our earnings. Other product segments are forecast to return to growth in 2026 where we continue to focus on our European expansion of OrganoTex and Nordic expansion of BIOkleen. New customers that have recently been added include: Löplabett and Swiss Ochsner sport for OrganoTex and Mestergruppen with Colorama and Happy Homes for BIOkleen.

### **Functional wood**

The fourth quarter was weak for the Functional Wood business area after our German distributors replenished their inventories in the third quarter and with weak demand in Sweden. Sales decreased by -42% (-39%) to SEK 4.2 (7.2) million. For the full year, however, our German investment has been successful with sales increasing by 36% to SEK 9.3 (6.8) million on total sales of SEK 32.3 (43.6) million. The focus in 2026 is continued expansion in Germany and an establishment in the Italian and Dutch markets where we have new distributors. We are also working to reverse the trend in Sweden, but our assessment is that the market will remain weak during the first half of the year.

### **Outlook**

With a significantly lower cost base and improved sales prospects in several of our product segments, our goal is to deliver significantly improved earnings in 2026. The positive effect on earnings is expected to be visible already in the first quarter, although the sales development is temporarily negatively impacted by the termination of the private label agreement for BIOkleen and the production planning of one of our major binder customers.

We are now continuing to drive our strategic efforts forward: to support our new nonwoven customers in their product launches, to intensify the market expansion of our consumer brands OrganoTex and BIOkleen, and to initiate the out-licensing of OrganoWood production.

Our clear focus is to take the Group into a phase of profitable green growth.

Sincerely

Mårten Hellberg  
CEO, OrganoClick AB

# Business overview

Unimaginable 11 million tonnes of plastic and hundreds of thousands tonnes of toxic chemicals are released into the world's oceans and nature every year. That is one of the biggest environmental challenges of our time and a problem that we at OrganoClick want to play a role in solving. With our green chemical innovations, we are replacing hidden plastics and fossil chemicals in cellulose-based materials with biobased and biodegradable alternatives.

We call it Made Green Inside by OrganoClick.

Nonwoven & Fiber Technologies

Green Coatings & Maintenance Products

Functional Wood

OrganoClick AB (publ) is a Swedish greentech company that develops and markets green chemical products and material technologies. The company was founded in 2006 as a spin-off from Stockholm University and the Swedish University of Agricultural Science, based on biomimetic research into natural chemical processes.

OrganoClick has won a number of awards, including the WWF "Climate Solver" award, and has been ranked among the 50 fastest-growing technology companies in Sweden and recognized by Affärsvärlden and NyTeknik in their listing of Sweden's top 33 hottest technology companies.

OrganoClick is listed on NASDAQ First North Growth Market and has its head office, production and R&D centre in Täby, north of Stockholm. In 2024, net sales amounted to MSEK 127 with about 40 employees.

## NOBEL PRIZE WINNING CHEMISTRY

OrganoClick's core technology was developed with inspiration from nature's own chemistry. By attaching organic molecules to the surface of cellulose fibers in materials such as wood, textile, paper or nonwoven, new features such as flame retardance, rot protection, water resistance and changed mechanical properties can be achieved.

Our name is composed of the words "Organo" for organocatalysis and "Click" for click-chemistry. The discovery of organocatalysis was awarded the Nobel Prize in Chemistry 2021, and the discovery of click-chemistry was awarded the Nobel Prize in Chemistry 2022.

We are very proud that OrganoClick in 2006 was one of the first companies in the world to begin developing products based on these groundbreaking green chemical technologies.

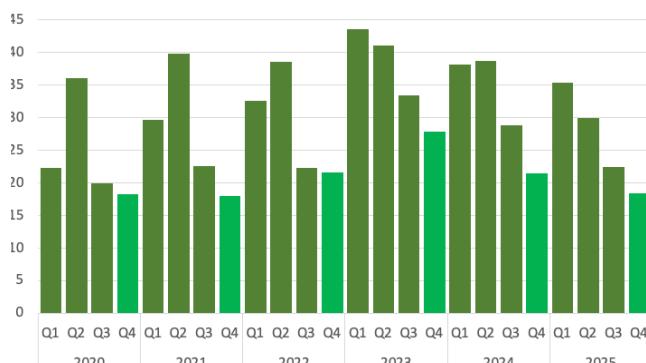

## THE FUTURE LOOKS GREEN. IT HAS TO!

The Group has made steady progress since the first product was launched in 2012. Over the past five years, the Group's net sales have grown from MSEK 85 in 2019 to MSEK 127 in 2024. In the last years, the Group has expanded its factory in Täby to a doubled production capacity of more than 20,000 tonnes per year and the group has a license to manufacture 30,000 m<sup>3</sup> of its chemical products per year.

Our goal is to continue to grow organically at a rapid pace and continue to improve our cash flow—and in the process, build a sustainable business while we simultaneously replace thousands of tonnes of plastic and fossil chemicals with biobased solutions.

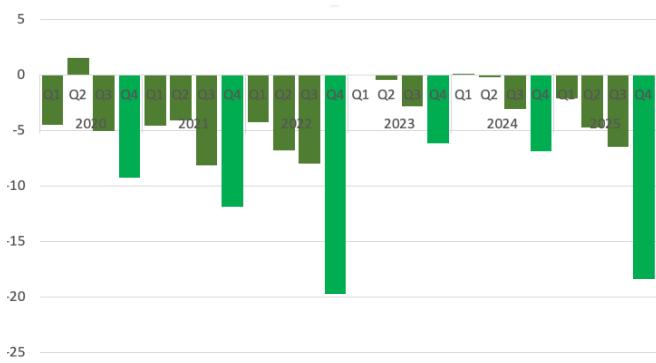

### Net sales by quarter, MSEK

Historically, the Group has been characterized by seasonal variations with higher sales in Q2, followed by Q1, while Q3 and Q4 have been weaker. This has changed somewhat in recent years, with sales in Q1 being higher than or at the same level as in Q2.

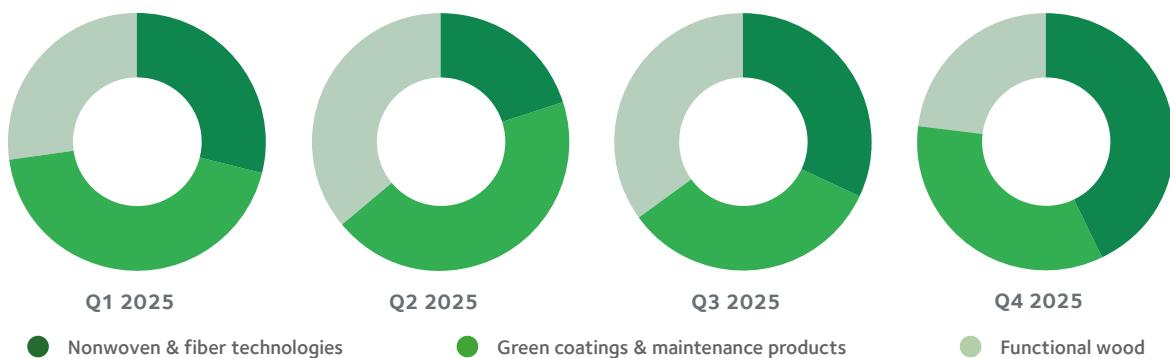

### Operating profit/loss, EBIT, by quarter, MSEK

Historically, operating profit/loss has mainly been negative, following seasonal variations. Clear improvements in results have been made in recent years, but the lower sales volume and restructuring costs has affected profitability in 2025.

### Net sales/business unit

The group's net sales are divided into three business units. The business units Green coatings & maintenance products and Functional wood are characterized by seasonal variations, with Q2 normally being the strongest quarter, followed by Q1.

# Comments on the financial development

## THE GROUP

### Profit/Loss October–December

Revenue for the fourth quarter amounted to KSEK 18,365 (21,428), which was a sales decrease of -14.3 (-23.2) percent. Sales in the Nonwoven & fiber technologies business unit increased by 17.3 (-24.9) percent compared to the previous year and revenues amounted to KSEK 7,941 (6,768). The increase is mainly due to more deliveries to the business area's largest customer. Sales in the Green coatings & maintenance products business unit decreased by -16.4 (4.4) percent and amounted to KSEK 6,270 (7,502) due to weak sales of OrganoTex, primarily to the brand's largest customer, which made large purchases in Q4 2024. Sales in the Functional wood business unit decreased by -42.0 (-38.9) percent in a continued challenging construction economy and revenues amounted to KSEK 4,153 (7,158).

The gross margin deteriorated to -24.4 (12.7) percent due to lower revenues, an impairment of obsolete inventory, especially old (first generation) OrganoWood timber, of KSEK -1,800 and a reserve for restructuring costs related to the savings program the Group implemented during the fourth quarter of KSEK -5,900. This resulted in a gross profit below previous year, KSEK -4,477 (2,719) and a weakening of operating profit to KSEK -18,339 (-6,876). Loss for the period amounted to KSEK -19,722 (-8,330). Adjusted for non-recurring items of KSEK -7,700, the adjusted operating profit was KSEK -10,639 (-8,330).

### Cash flow and investments October–December

Cash flow from operating activities amounted to KSEK 2,968 (4,704) with negative cash flow from profit, KSEK -13,730 (-4,519) but positive cash flow from working capital, KSEK 16,698 (9,223). In working capital, proceeds were freed partly from reduced inventory and partly from reduced trade receivables as a result of lower sales in the fourth quarter compared with the third.

Investments of KSEK 2,455 (2,152) were made in intangible assets in the form of development projects and patents and investments of KSEK 51 (79) were made in property, plant and equipment in the form of production equipment. During financing activities, the Group's use of overdraft facilities increased by KSEK 6,991 (-1,027) and the use of invoice financing facilities decreased by KSEK -5,381 (-8,930) as a result of reduced trade receivables. Loans of KSEK 1,500 (12,900) have been taken out and loans of KSEK -300 (-5,000) have been repaid. Amortization amounted to KSEK -5,861 (-4,221), of which KSEK -5,353 pertained to loans and KSEK -508 to leases. Total cash flow for the Group amounted to KSEK -2,660 (-3,804).

### Results January – December

Revenue for the year decreased by -16.5 (-12.8) percent and amounted to KSEK 106,190 (127,227). Sales in the Nonwoven & fiber technologies business unit decreased by -15.4 (-27.0) percent compared to the previous year and revenues amounted

to KSEK 31,610 (37,353). The decrease is due to fewer deliveries to the business area's largest customer, which is affected by developments in the hotel and restaurant industry. Sales in the Green coatings & maintenance products business unit decreased by -8.7 (22.1) percent to KSEK 42,294 (46,309), where sales of OrganoTex were lower due to inventory build-up at a large customer during the previous year and sales of car care products have decreased. Sales in the Functional wood business unit continued to be negatively impacted by the recession in the construction sector, and sales decreased by -25.9 (-23.2) percent to KSEK 32,285 (43,564).

Gross profit was below previous year and amounted to KSEK 14,861 (31,839), where the gross margin deteriorated to 14.0 (25.0) percent, as a result of the lower revenues, an impairment of obsolete inventory, especially old (first generation) OrganoWood timber, of KSEK -3,100 and a reserve for restructuring costs related to the savings program the Group implemented during the fourth quarter of KSEK -5,900. This resulted in an operating profit deteriorating compared to the previous year and was KSEK -31,567 (-9,861). Financial costs increased compared to the previous year due to higher loan-to-value and the result for the period amounted to KSEK -38,002 (-16,177). Adjusted for non-recurring items of KSEK -9,000, adjusted operating profit was KSEK -22,567 (-9,861).

When the Group reports a negative result, the effective tax is zero. Loss carry-forwards increase and the Group does not capitalise deferred tax on loss carry-forwards. The income statement recognizes deferred tax on temporary differences in internal gains in inventories and intangible assets and in respect of leases.

### Cash flow and investments January – December

Accumulated cash flow from operating activities amounted to KSEK -8,290 (3,602) with negative cash flow from profit, KSEK -19,483 (-705) but positive cash flow from working capital, KSEK 11,193 (4,306), where proceeds were released from inventory and trade receivables.

In intangible assets, KSEK -8,770 (-7,174) was invested in development projects and patents, and KSEK -2,220 (-1,937) was invested in property, plant and equipment, mainly in the form of production equipment. During the financing activities, a new share issue provided a financial contribution of KSEK 19,652 and the introduction of a warrant program provided a contribution of KSEK 530. The Group's use of overdraft facilities decreased by KSEK -393 (-2,652) and the use of invoice financing facilities decreased by KSEK -2,206 (-4,168) with reduced trade receivables. New loans of KSEK 14,520 (22,900) were raised and loans of KSEK -300 (-5,975) were repaid. Amortization amounted to KSEK -10,382 (-14,794), of which KSEK -7,812 pertained to loans and KSEK -2,570 to leases. Total cash flow for the Group amounted to KSEK 2,140 (-10,199).

### **Financial position**

Cash and cash equivalents in the Group at the end of the period amounted to KSEK 2,677 (538) with a cash liquidity of 19.4 (20.9) percent. Net debt/equity ratio was 430.1 (172.9) percent. At the end of the period, overdraft facilities of KSEK 23,933 (24,326) were utilised from total facilities of KSEK 30,000 (30,000).

### **PARENT COMPANY**

#### **Results October–December**

Revenue for the fourth quarter amounted to KSEK 13,867 (13,497), an increase due to stronger sales of binders. The gross margin was below previous year and is negatively impacted by a correction of obsolete inventory of KSEK -600 and a reserve for restructuring costs related to the savings program the Group implemented during the fourth quarter of KSEK -5,900. This resulted in a gross loss of KSEK -1,934 (23) and an operating loss of KSEK -12,139 (-6,486). Loss for the period amounted to KSEK -11,400 (-5,876) with increased financial costs due to higher loan-to-value. Adjusted for non-recurring items of KSEK -6,500, the adjusted operating profit was KSEK -5,639 (-6,486).

#### **Results January – December**

Revenue for the year for the parent company amounted to KSEK 71,752 (82,858), a decrease due to lower sales of binders to the business area's largest customer, as well as lower sales of OrganoTex. Gross profit amounted to KSEK 4,859 (10,801) and is negatively impacted by a correction of obsolete inventory of KSEK -800 and a reserve for restructuring costs related to the savings program the Group implemented during the fourth quarter of KSEK -5,900. Operating loss was KSEK -25,958 (-15,253) and profit/loss for the period amounted to KSEK -27,895 (-16,943) where financial costs increased with increased borrowing. Adjusted for non-recurring items of KSEK -6,700, adjusted operating profit was KSEK -19,258 (-15,253).

#### **Financial position and investments**

Cash and cash equivalents in the parent company at the end of the period amounted to KSEK 2,649 (487) and equity to KSEK 39,849 (46,999). During the period, the Parent Company invested KSEK -6,728 (-5,494) in intangible fixed assets in the form of development projects and patents and KSEK -2,332 (-1,937) in property, plant and equipment, mainly in the form of production equipment.

# Other information

## SIGNIFICANT EVENTS DURING THE PERIOD

OrganoClick announced and implemented an efficiency program that, at full effect, will result in a cost reduction of SEK 20 million (of which SEK 16 million in OrganoClick AB and SEK 4 million in OrganoWood AB). Restructuring costs and write-downs of obsolete inventory of approximately SEK 7.7 million have been reserved for the quarter.

## SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD

No significant events after the end of the period.

## RISKS AND UNCERTAINTIES

The Group's significant risks are primarily attributable to the market development for the Group's various product areas, financial risks as the Group may need additional capital injection to conduct its operations in its current form, production risks related to its own production and partners' production capacity and risks with intangible assets and product development. For a more detailed description of significant risks and uncertainties, refer to OrganoClick's Annual report for 2024, pages 44-46.

## PERSONNEL

At the end of the period, the number of employees in the Group was 39 (39). Of these, 30 (29) were employed in the parent company, 7 (9) employed in the subsidiary OrganoWood AB and 2 (2) employed in the subsidiary Biokleen Miljökemi AB. Of the employees, 13 (14) were women and 26 (25) men.

## SHARE INFORMATION

OrganoClick AB's share capital at the beginning of 2025 amounted to SEK 981,180 distributed on 98,117,967 shares. The quota value of all shares is 0.01 and they are equally entitled to share the company's assets and earnings. During August, a set-off issue of 341,759 shares was carried out at a quota value of 0.01, as compensation for cash board fees, which increased the number of shares to 98,459,726 and the share capital to SEK 984,597. In August, a new share issue of 11,543,290 shares was also carried out at a quota value of 0.01, which increased the number of shares to 110,003,016 and the share capital to SEK 1,100,030.

OrganoClick AB's share has been listed on Nasdaq First North Growth Market since 2015. The number of shareholders on December 31 was 2,907 (3,347) and the closing price of the share on December 30 was 1.75 (2.87), giving a market capitalization of SEK 193 (282) million.

# Notes

## ACCOUNTING PRINCIPLES

This interim report has been prepared for the Group in accordance with IAS 34, Interim Financial Reporting, and the Swedish Annual Accounts Act. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and RFR 1 Supplementary Accounting Rules for Groups. The parent company applies the Annual Accounts Act and RFR 2 Accounting for Legal Entities. The same accounting principles and calculation methods have been applied in the interim report as in the annual report 2024.

## NOTE 1 OPERATING SEGMENTS AND BREAKDOWN OF REVENUE

Operating segments are reported in a manner consistent with the internal reporting provided to the highest executive decision maker.

The Group's business units utilize common resources in terms of sales, production, research & development and administration, which is why a division of the Group's costs is only possible by allocating the costs. The same applies to the Group's assets and liabilities. The Group management does not consider that allocation of profit and loss and balance sheet items contributes to a more accurate picture of the business and therefore follows up the outcome for the group as a whole. The Group has thus identified one operating segment.

The follow-up of the Group's net sales is done for the three business units Nonwoven & fiber technologies, Green coatings & maintenance products and Functional wood. The outcome per business unit consists of a combination of net sales of goods sold from different parts of the Group's operations, which, however, do not consist of separate income statements and balance sheets.

Group Net sales per business unit	Oct-Dec 2025	Oct-Dec 2024	Jan-Dec 2025	Jan-Dec 2024
Nonwoven & fiber technologies	7,941	6,768	31,610	37,353
Green coatings & maintenance products	6,270	7,502	42,294	46,309
Functional wood	4,153	7,158	32,285	43,564
<b>Total</b>	<b>18,365</b>	<b>21,428</b>	<b>106,190</b>	<b>127,227</b>

## Net sales per geographic market

	Sweden	16,197	17,364	83,106	99,995
Other Nordics	657	1,837	6,222	8,961	
The rest of Europe	1,422	2,169	15,985	18,093	
Asia	0	0	736	77	
North America	90	58	141	99	
Oceania	0	0	0	2	
<b>Total</b>	<b>18,365</b>	<b>21,428</b>	<b>106,190</b>	<b>127,227</b>	

Net sales consist of sales of products within the Group's various business units.

Revenue is reported at the time the control of the products is transferred to the customer, generally upon delivery. All sales are reported at a specific time, no revenue is recognized over time.

## NOTE 2 SEASONAL VARIATIONS

The business units Green coatings & maintenance products and Functional wood are strongly characterized by seasonal variations depending on the weather and when in the year it is building and DIY season. For the Group, this has historically meant that the strongest sales quarters are the first and second, while the third and fourth quarters have been weaker.

## NOTE 3 OTHER OPERATING INCOME AND OTHER OPERATING EXPENSES

Group	Oct-Dec 2025	Oct-Dec 2024	Jan-Dec 2025	Jan-Dec 2024
Exchange gains on receivables/payables of an operating nature	38	94	535	1,352

Losses, disposal/sale of property, plant and equipment	-117	-	-117	-
Other operating expenses	-	-	-	-
<b>Total</b>	<b>-165</b>	<b>-27</b>	<b>-1,065</b>	<b>-892</b>

## NOTE 4 ORGANOWOOD AB'S PREFERENCE SHARES

In the subsidiary OrganoWood AB there are two types of shares, ordinary shares and preference shares. In 2013, OrganoWood AB issued 200,000 preference shares with a nominal amount of SEK 100 per share, corresponding to a total amount of the issue of SEK 20,000 thousand. The terms of the preference shares are established in OrganoWood AB's Articles of Association. As of the balance sheet date, OrganoClick owned 36.4% of the preference shares, other ordinary shareholder in OrganoWood AB 27.0% and the remaining 36.6% was owned by 26 preference shareholders.

The preference shares do not carry dividend rights, but holders are only entitled to a redemption value. The redemption value was SEK 184.80 as of 31 May 2019 and the amount increases by 12 percent per annum as of 1 June 2019. As of 31 December 2025, the redemption value per preference share was SEK 390.3 (348.5). No dividend may be paid to the holders of ordinary shares until there is enough non-restricted equity to redeem the preference shares.

At OrganoWood AB's Annual General Meeting on 15 May 2025, it was decided to allow the preference shares to run in accordance with the prescribed conditions as there was not enough non-restricted equity to redeem them. The aim is to redeem the preference shares when non-restricted equity so permits.

## NOTE 5. ADJUSTMENT FOR NON-CASH ITEMS

Group	Oct-Dec 2025	Oct-Dec 2024	Jan-Dec 2025	Jan-Dec 2024
Depreciation/amortization of intangible fixed assets	1,342	798	4,787	4,195
Depreciation/amortization of property, plant and equipment	5,010	2,925	13,918	11,336
Disposal of property, plant and equipment	117	0	117	-165
<b>Total</b>	<b>6,469</b>	<b>3,723</b>	<b>18,822</b>	<b>15,365</b>

## NOTE 6 FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE

For the Group's financial assets and liabilities, the fair value is assessed to be consistent with the carrying amount.

## NOTE 7 RELATED PARTIES

OrganoClick has transactions with related parties. The main owners of the company, Cidro Förvaltning AB, Beijer Ventures AB and M. Hellberg AB has entered a guarantee commitment for the growth loan that runs until November 2026. The company has obtained a shareholder loan from the principal owner Cidro Holding AB.

OrganoWood AB has transactions with related parties. Board member and shareholder Robert Charpentier has, from his own company Kvigos AB, invoiced and accrued interest and guarantee fees, for loans and guarantee liability, of KSEK 100 (24) and invoiced consultancy fees of KSEK 100 (100). Outstanding interest-bearing loans from Kvigos AB amount to KSEK 250 (0) and invoiced and accrued interest on loans amount to KSEK 13 (0).

Invoiced and accrued interest on loans provided by shareholder Ilija Batljan, via his own company Ilija Batljan Invest AB, amount to KSEK 12 (22). Outstanding interest-bearing loans from Ilija Batljan Invest AB to OrganoWood AB amount to KSEK 250 (0).

The transactions between the companies and the shareholders take place at prices at arm's length.

## NOTE 8 ESTIMATES AND ASSESSMENTS

The preparation of the interim report requires the management to make assessments and estimates and to make assumptions that affect the application of the accounting principles and the reported amounts of assets, liabilities, income and expenses. The actual outcome may differ from these estimates and assessments. The critical estimates and sources of uncertainty in estimates can be found in the Group's annual report for 2024, page 71.

# Alternative performance measure

OrganoClick presents alternative performance measures in addition to the conventional financial key ratios established by IFRS, with the aim of giving investors and management the opportunity to evaluate and understand the development of the operational operations and financial status and to facilitate comparisons between different periods. Below, and on the following page, are definitions and calculations for components that are included in alternative performance measures used in this report.

Non-IFRS key ratios	Definition/Calculation	Purpose
<b>Performance measures</b>		
<b>Gross margin</b>	Net sales for the period minus the cost of goods sold in relation to net sales for the period.	The gross margin is used to measure and evaluate whether manufacturing processes, raw materials and procurement are cost-effective, that is the profitability of production.
<b>Operating margin, EBIT</b>	Operating profit/loss for the period in relation to net sales for the period.	The operating margin is used to measure operational profitability.
<b>EBITDA</b>	Operating profit/loss excluding depreciation and impairments of intangible assets and property, plant and equipment.	EBITDA is used to measure operational profitability, excluding the effects of previously made investments and accounting decisions.
<b>Profit margin</b>	Profit/loss for the period in relation to net sales for the period.	The profit margin shows the profit per turnover SEK, which gives an indication of how efficient a company is.
<b>Revenue growth</b>	The percentage increase in sales for the past period compared to the corresponding previous period.	The change in net sales reflects the group's realized sales growth over time.
<b>Organic growth</b>	Changes in net sales, excluding acquisition-driven growth.	Organic growth excludes the effects of changes in the Group's structure, enabling a comparison of net sales over time.
<b>Capital structure</b>		
<b>Equity ratio</b>	Equity in relation to total assets. Equity includes non-controlling interests.	The key figure reflects the group's financial position. Good equity ratio gives a readiness to handle periods of weak economic activity and financial preparedness for growth. At the same time, it provides a minor advantage in the form of financial leverage.
<b>Quick ratio</b>	Current assets, excluding inventories, in relation to current liabilities, without adjustment for proposed dividend.	Quick ratio shows short term solvency. If quick ratio is greater than 100 percent, current liabilities can be paid immediately, provided that the current receivables can be converted immediately.
<b>Net debt</b>	Interest-bearing non-current and current liabilities (incl. leasing and invoice factoring debt) minus interest-bearing assets including cash and cash equivalents.	Net debt shows the ability to pay off all interest-bearing liabilities with available cash and shows the possibility of living up to financial commitments.
<b>Net debt/equity ratio</b>	Net debt in relation to shareholders' equity. Equity includes non-controlling interests.	The net debt/equity ratio shows the relationship between net debt and equity and measures the extent to which the company is financed by loans.

## RECONCILIATION ALTERNATIVE PERFORMANCE MEASURES
