

## M.O.B.A. Network Announces Launch of Valofessor.gg

**Stockholm, Sweden - Aug 9th 2024 - M.O.B.A. Network AB, a leader in providing data-driven solutions and community platforms for gamers, is proud to announce the launch of Valofessor.gg, a new website dedicated to delivering the best data and insights for the game Valorant. This initiative aims to help everyone from casual players to professional gamers to tap into Valorant's massive amount of gamers worldwide.**

Valorant is a competitive first-person shooter game that combines precise gunplay with strategic team coordination and unique character abilities, making it a leading title in the growing esports market. The game has got a large global user base. Various sources suggest that the game engages approximately 20-28 million monthly active users.

Valofessor.gg will serve as a comprehensive platform for Valorant players, offering detailed statistics, strategy guides, and performance analytics. This data-rich website will also serve as the underlying database for M.O.B.A Network's highly anticipated Valofessor desktop app. The app is under development and planned to be launched by the end of Q3. It aims to provide seamless integration and an enhanced user experience for Valorant players.

M.O.B.A. Network's first in-game desktop app, Porofessor, has achieved significant success reaching 13 million installs and 600-800k daily active users. This success demonstrates M.O.B.A. Network's ability to create high-quality, user-focused apps that appeal to the gaming community. In-game apps represent a major revenue source for M.O.B.A. Network and these kinds of apps are witnessing a positive trend when it comes to the amount of users and monetization via ads.

"We are pleased to introduce Valofessor.gg to the Valorant community. The website provides a good user experience and also represents a significant step closer to the launch of the upcoming Valofessor app. Our existing app, Porofessor, is a true success story, and it proves that our team has the capacity to deliver high-quality apps that can generate significant revenue for the company," said Anders Ribbing, CEO of M.O.B.A. Network.
