

## Press release

1 April 2026

# HACKSAW INVESTS IN JINX GAMING THROUGH HACKSAW VENTURES, STRENGTHENING OPENRGS COLLABORATION

Hacksaw Ventures, a part of Hacksaw Gaming, has entered into an agreement to invest in Jinx Gaming, a current partner studio on the OpenRGS platform, and has become a minority shareholder. The new agreement deepens the relationship between the two companies and supports continued innovation as they work together to develop and release new titles through OpenRGS. The agreement also includes the option for Hacksaw to increase its stake over time. Jinx Gaming joined the OpenRGS platform last December through the launch of its first title, Dead Headz.

Through Hacksaw Ventures, Hacksaw invests in early-stage companies in its eco-system, including potential and existing OpenRGS studios. The focus is to identify companies and entrepreneurs with significant potential, where Hacksaw can contribute capital and knowledge to back these entrepreneurs, and help the companies become even more successful.

### **Fran Mifsud, Vice President of Hacksaw Ventures, commented:**

*"Jinx Gaming has demonstrated a clear vision and strong creative direction since joining the platform and we are thrilled to welcome them as part of Hacksaw Ventures. The investment provides Jinx with further resources to develop innovative and exciting games. We're excited to begin the next stage of our journey together."*

### **Reu Wilde, Founder of Jinx Gaming, commented:**

*"Out of the gate we've given players leading first-person-shooter and platformer experiences on the market, and now we have the might of Hacksaw behind us. Through our deepened partnership with Hacksaw, we will continue to rewrite the expectations of what a slot game is."*
