

## QleanAir expands product portfolio with the launch of six new solutions for optimization of air quality in professional environments

**QleanAir AB (publ), the premium provider of solutions for clean indoor air, announces the launch of six new air cleaning products for optimization of air quality in professional environments.**

The **QleanAir FS 70 Oil Mist**, a freestanding air cleaner developed after extensive testing in real life heavy production environment. The product, including patent-pending technology, meets the demand for effective filtration of oil mist in metal working industries.

The **QleanAir FS 30 Industrial**, developed as a response to the need for flexible and space-efficient air cleaning in industrial environments. The product will complement the current product line-up of the industrial air cleaners FS 70 and FS 90.

A new generation of the **QleanAir FS 70 Food Grade (FG)**, with improved design and acid proof stainless steel for the toughest environments within the food and beverage industry. This solution provides customers an important tool to further improve production cleanliness and product quality. The range of accessories is expanded with food graded filters and a unique water mist eliminator, that withstands high-pressure washing.

The **QleanAir QS 5**, a new, groundbreaking solution developed in close cooperation with the space industry to provide clean zones for industries with high requirements on technical cleanliness in production. The design of the product ensures a flexible, scalable and cost-efficient alternative to traditional cleanrooms.

The **QleanAir FS 70 SRE**, a new and powerful air cleaning product developed to provide an effective solution for the global smoking rooms market. The FS 70 SRE has four times the air cleaning and airflow capacity compared to other solutions, strengthening the offering towards larger smoking rooms.

QleanAir also launch an improved version of the Outdoor Smoking Lounge, the **QleanAir SL 12**, with 2000 m<sup>3</sup>h airflow and 50% increased air cleaning capacity for clean and odor free surroundings.

*"At QleanAir we constantly strive to push the boundaries for better air quality and to lead the development of innovative solutions in close cooperation with customers and our suppliers. We are proud to release six new solutions 2024. These launches are in line with our long-term mission, to make a real difference through clean air",* says Sebastian Lindström, CEO of QleanAir AB.

More information about the new solutions will be published at [qleanair.com](https://qleanair.com) towards the end of the year.
