Mycronic receives order for a Prexision 80 Evo

Mycronic AB (publ) has received a replacement order for a Prexision 80 Evo from an existing customer, for delivery to Asia. The order value is in the range of USD 21-24 million. Delivery of the system is planned for the second quarter of 2027.

The Prexision 80 Evo mask writer meets the market's requirements regarding complex patterns for display photomasks.

"This order for a Prexision 80 Evo is placed within our replacement program, which supports customers in modernizing their installed base and secures continued high-quality production of complex photomasks for the display industry. We truly appreciate the trust our customers place in us as they take the next step in advancing their production capabilities", says Charlott Samuelsson, Senior Vice President Pattern Generators at Mycronic.

Mycronic's Pattern Generators division provides mask writers and metrology systems for display manufacturing and production of semiconductors.
