

Net Insight AB (publ) – Earnings update for the second quarter of 2026

Stockholm – Net Insight AB (publ) today announces a preliminary earnings update for the second quarter of 2026. The Company expects to report net sales of approximately SEK 91 million (143) and EBIT of approximately SEK -26 million (-10).

During the second quarter, revenue within Media amounted to approximately SEK 79 million (138). Revenue from the Time Synchronization business area increased by SEK 8 million to approximately SEK 12 million (4).

“We conclude that larger Media deals did not materialize during the quarter, while we are comparing against a strong period in the prior year that was supported by a number of large orders,” says CEO Andreas Eriksson. “We continue to execute on the action plan previously communicated. Further details will be provided in next week’s report.”

Costs in the quarter were lower compared with the corresponding quarter of 2025 as a result of cost-saving measures implemented during the previous year. Total cash flow for the quarter amounted to approximately SEK -19 million.

All figures in this press release are preliminary. Net Insight’s report for the second quarter of 2026 will be published on July 15, at 07:30 CEST.

About Net Insight

Net Insight (Nasdaq: NETI B) provides the highest performing, most open video transport and media cloud technology for content providers as the industry standard for flexibility and service across live contribution, distribution and remote production media workflows.

For over 25 years, the world's leading content owners, broadcasters, production companies, service providers and enterprises have trusted Net Insight's Emmy® Award winning Nimbra technology to guarantee media delivery. Today, Net Insight partners with hundreds of customers in over 85 countries to ensure media flows across managed and unmanaged IP networks, and the cloud – from anywhere, to everywhere. It enables customers to get the best from any mix of virtualized, cloud and IP technology and is the only platform to support all the major industry standards, protocols and clouds.

Net Insight also provides time synchronization for 5G and other critical networks. The innovative Zyntai solution improves network resilience, and reduces costs and deployment time.
