

Eolus granted permission to build a solar park in Båstad municipality

In 2022, Eolus applied to the County Administrative Board in Skåne to establish a solar park on the Bjäre Peninsula in the municipality of Båstad. The County Administrative Board rejected the establishment, but the Land and Environment Court overturned the decision, granting Eolus the right to proceed with the development of the park. The judgment is now legally binding.

The planned solar park named Påarp consists of a two-hectare project area, smaller than Eolus typically develops.

"It's very positive that the court recognizes the benefits of solar parks in locations like this. Our calculations show that even a smaller project like Påarp can be profitable and contribute with renewable electricity to southern Sweden," says Andres Möser, solar analyst at Eolus.

The area currently consists of hayfields and pastureland, which can still be used even if the solar park is built. The next steps involve securing the electrical grid connection and conducting geotechnical surveys to determine the amount of bedrock in the ground, which could affect the project's cost. A decision on construction has not been made yet, but the park could be completed by 2026.

Eolus already has permission to establish three solar parks in Sweden: Säbyholm in Laholm, Södra Valla in Örebro, and Hässlåholms Gård in Falkenberg.

ABOUT EOLUS

Eolus is a leading developer of innovative and customized renewable energy solutions. We offer attractive and sustainable investments in the Nordics, the Baltics, Poland and the USA. From development of green field projects to construction and operation of renewable energy assets, we are part of the entire value chain. For over three decades we have worked for a future where everyone can lead a fulfilling, yet sustainable life. Today, our project portfolio includes more than 26 GW wind, solar and energy storage projects. Eolus – shaping the future of renewable energy.

Eolus's Class B share is listed on Nasdaq Stockholm. www.eolusvind.com
