About the China venture

in China ASAB operates through, its wholly owned local subsidiaries Advanced Soltech Renewable Energy (Hangzhou) Co. Ltd, ASRE and Longrui Solar Energy (Suqian) Co. Ltd. The business model consists of financing, installing, owning and managing solar energy installations on customers' roofs in China. The customer does not pay for the plant, but instead enters an agreement to buy the electricity that the plant produces under a 20-year agreement. Current income comes from the sale of electricity to customers and from subsidies. The goal is to have an installed capacity of 1,000 megawatts (MW) which is fully connected to the electricity grid by 2024.
