

FlexQube Receives Order Worth Approximately EUR 475,000 in England

FlexQube has received an order in England for mechanical carts valued at approximately EUR 475,000. The customer is an international automotive manufacturer, and delivery will take place during the second and third quarters of 2026.

Tim Massey, Sales Manager UK comments: *“This is an important order for us and demonstrates continued strong confidence from the global automotive industry. The order strengthens our position in the United Kingdom and confirms that our solutions are well suited to meet today’s demands in automotive production.”*

About FlexQube

FlexQube is a technology company headquartered in Gothenburg, Sweden with subsidiaries in USA, Mexico, Germany and England. FlexQube offers solutions for cart-based material handling using a patented modular concept. FlexQube develops and designs customized solutions for both robotic and mechanical cart logistics. Through the own developed and unique automation concept FlexQube can offer robust and self-driving robotic carts. FlexQube has more than 1200 customers in 40 countries with primary markets being North America and Europe. FlexQube’s customers can be found within the manufacturing industry, distribution- and warehousing. We represent some of the most successful companies in the world with a significant share being represented on the Fortune 500 list. These companies exist within automotive, electric vehicle manufacturing, online retail, heavy-duty trucks, industrial automation and retail logistics.
