

Appendix 1 - Curriculum vitae of Christina Lloyd

Christina Östberg Lloyd, MD, is a specialist in obstetrics and gynaecology and a senior life science executive with more than 30 years of experience across clinical medicine, pharmaceutical development, women's health, innovation, business development and strategic leadership.

She has held senior international leadership roles within life science, with particular focus on women's health, reproductive medicine and specialty care. Her expertise spans clinical development, medical and commercial strategy, partnerships, governance, policy shaping and board work.

Christina has a long-standing commitment to advancing women's health across the full life course, including reproductive health, hormonal health, sexual health and under-recognised conditions with significant unmet medical need. This aligns closely with Initiator Pharma's focus on developing novel therapeutics in areas such as vulvodynia, female sexual dysfunction, erectile dysfunction and pain indications.

She is Chairwoman of VILDA, Leading Women in Life Science, a board member of RFSU, Spermosens AB and CMedical AS, and serves as medical expert and strategic advisor to several organisations and companies within women's health, femtech, digital health and life science innovation.

Christina brings clinical depth, international industry leadership, board experience and strong strategic insight into women's health, innovation, policy and business development.
