

DOSELL AB GRANTED EUROPEAN PATENT IN DATA-DRIVEN MEDICATION MANAGEMENT

iZafe Group AB (publ) today announces that its subsidiary Dosell AB has been granted a European patent, EP4228584, titled “Medication Delivery”. The patent strengthens iZafe Group’s long-term position within data-driven and personalized healthcare and represents an important part of the company’s continued development of digital care solutions, including its new remote care system.

The patent covers a system where patient data from sensors is analyzed to identify changes in health status. Based on this information, medication treatment can be adjusted over time, enabling more personalized and proactive care.

Although the patent is not directly linked to Dosell’s current functionality, it aligns with iZafe Group’s strategic direction of combining medical technology, data, and future AI-based analytics.

Through this patent, the company strengthens:

- its technological platform for future solutions
- its intellectual property value
- its position within a growing global healthcare segment

In the long term, the technology enables solutions where treatment can be optimized based on real patient data, contributing to improved patient safety and more efficient healthcare.

“This patent is an important step in our long-term strategy. It clearly demonstrates the direction we are moving in—towards more data-driven, intelligent, and personalized healthcare. At the same time, it strengthens our intellectual property and future potential,” says Anders Segerström, CEO of iZafe Group.

About iZafe Group AB (publ.)

iZafe Group is a Life Science company that conducts research, development and marketing of digital medical solutions and services for safer medication management at home.

The company leads the development of digital drug dispensing through the drug robot Dosell as well as the SaaS solution Pilloxa with the smart pillbox. The company's solutions reduce the risk of incorrect medication in the home, increase compliance, relieve public health care, increase the quality of life for patients and create a safer environment for relatives.

The customers consist of private individuals, pharmaceutical companies and public and private healthcare providers in Sweden, the Nordics and globally. iZafe Group primarily sells through well-established partners who already have long and deep customer relationships with the prioritized customer groups. The head office is in Stockholm.

iZafe Group AB has been listed on the Nasdaq First North Growth Market since 2018. The company's Certified Adviser is DNB Carnegie Investment Bank AB. Further information is available at www.izafegroup.com
