COMMENTS FROM THE CEO, VALTTERI EROMA

NEW DISTRIBUTION MODEL COMPLETED FOR THE FINNISH- AND NORDIC TRAVEL RETAIL MARKET

The big change in the way we distribute our products in Finland and Nordic Travel Retail was under planning during the second half of 2022, with the aim to streamline and enhance our sales and distribution operations on these markets. During the fourth quarter of 2022 we were able to release the first phase of the change, through signing a distribution agreement for the Finnish- and Nordic travel retail market with Norex Selected Brands Oy.

During the first quarter of 2023, the second phase of the renewed distribution model for the Finnish- and Nordic travel retail market was set, when we signed a distribution agreement for the Finnish market with Oy Sinebrychoff Ab.

This new distribution setup results in us having two very experienced and focused distributors for the Finnish- and Nordic travel retail markets; Norex Selected Brands Oy and Oy Sinebrychoff Ab. Oy Sinebrychoff Ab distributes selected Arctic Blue Beverages' products in the HoReCa field, starting from 1st of April. Norex Selected Brands Oy distributes our products to the national beverage retailing monopoly Alko, to wholesale and in the HoReCa field. Norex Selected Brands Oy also acts as Arctic Blue Beverages' products sales agent. This new arrangement enables us to concentrate many channels into two experienced sales organizations, and thus ensure a consistent brand image and competitive product portfolio in all our important channels. Together with Norex Selected Brands and Sinebrychoff, we now have the best possible distribution partners in Finland and Nordic travel retail.

SALES

In the first quarter of 2023, our sales revenue increased by 15% compared to the same period last year. The main reason for the increase was a very good progress on the home market Finland, where sales in the first quarter of 2023 was three times higher than corresponding period last year. The increase in sales from the Finnish market is partly a sign of a positive collaboration start with our new distributor Norex Selected Brands Oy. The collaboration has started off well both on the HoReCa field and in Nordic travel retail.

Total sales revenue in the first quarter 2023 went down by 13%, compared to the previous quarter, mainly due to seasonal changes. However, there was good development in Nordic travel retail, on the Benelux and German market and in Western Canada.

MAJOR EVENTS

We have, together with our distributor Joyhall Inc. had a great start in the Canadian market. Since signing a distribution agreement with Joyhall Inc. in September 2022, our premium products are now available in over 30 retail locations across the province Alberta. During the first quarter of 2023, we have, together with our distributor taken the first steps to introduce our products to British Columbia's large craft gin market with the goal to expand our distribution network in Western Canada.

In the beginning of March 2023, we signed a distribution agreement for the Finnish market with Oy Sinebrychoff Ab. The distribution agreement covers distribution of selected Arctic Blue Beverages' products in the Finnish HoReCa field. The agreement enters into force the 1st of April 2023.

We signed a distribution agreement for the Benelux and German markets with MarketEntry.EU, a member of the STEX Group b.v. Together with our new distributor, we are looking forward to expanding our product availability in the growing European craftand premium gin market. Consumers are increasingly interested in high-quality, artisanal products with unique and authentic flavours. Our unique taste profile and commitment to high-quality ingredients makes us well-positioned to meet the demand for premium and craft gins in these markets.

For the Japanese domestic and travel retail market we signed a long-term distribution agreement with ID SHOJI Co.,Ltd. The signed agreement with ID SHOJI Co.,Ltd marks a substantial milestone for us on our ongoing expansion in the Japanese craft gin market – an expansion that now takes full wind in the sails after the challenges brought by Covid-19. The agreement covers distribution on both the domestic and travel retail markets, giving us the means to introduce our premium craft gins to a wide audience. Nordic brands with a distinctive story have a great potential on the Japanese market.

SUMMARY

Year 2023 has had a promising start with finalizing our new distribution model for the Finnish- and Nordic travel retail market through signing a distribution agreement with Oy Sinebrychoff Ab. The agreement enters into force the 1st of April 2023.

During the first quarter of 2023, we have succeeded in making good progress in Finland together with Norex Selected Brands Oy. The sales in Finland in the first quarter of 2023 was three times higher than corresponding period last year, indicating a promising start with our new distributor.

Due to the challenging world – and economic situation, the progress on new markets have been slower than anticipated and we have continued to adjust our operations and activities to adapt to the current situation in the best possible way. Our efficiency program has started to show results in lower operational costs. However, we have already seen positive signs from the Benelux and German markets, and in Canada we have taken our first step to introduce our products to the province British Columbia, after a successful start in Alberta. Going in to the second quarter of the year 2023 I am looking forward to getting our renewed distribution model in Finland and in Nordic travel retail strengthened with focus on increasing our availability in the HoReCa field. The new distribution setup for Finland and Nordic travel retail, with two experienced partners, Norex Selected Brands Oy and Oy Sinebrychoff Ab, is a setup in which I believe very positively.

Additionally, strengthen the collaboration with our new distributors, ID SHOJI Co.,Ltd for the Japanese market and MarketEntry.EU for the Benelux and German markets.

Valtteri Eroma, CEO

BUSINESS OVERVIEW

SIGNIFICANT EVENTS DURING JANUARY – MARCH 2023

SALES

In the first quarter of 2023, our sales revenue increased by 15% compared to the same period last year. The main reason for the increase was a very good progress on the home market Finland, where sales in the first quarter of 2023 was three times higher than corresponding period last year. The increase in sales from the Finnish market is partly a sign of a positive collaboration start with our new distributor Norex Selected Brands Oy. The collaboration has started off well both on the HoReCa field and in Nordic travel retail.

Total sales revenue in the first quarter 2023 went down by 13%, compared to the previous quarter, mainly due to seasonal changes. Additionally, partners further away usually place orders of larger quantity at once, and stocking of products to both Japan and Taiwan took place during the last quarter of 2022. However, our new distributor in Japan, ID Shoji, has already actively started its operations. We are also seeing promising developments in markets such as Benelux and Germany.

Seasonal activity during the first quarter in the Nordic travel retail market contributed to increased sales. We are also making progress in expanding our product availability in Western Canada, with our taste profiles attracting attention. Especially Arctic Blue Oat has gained great attention among retailers as they are looking for dairy-free, gluten-free, and vegan options.

FINANCIAL OVERVIEW

In the first quarter 2023, Company's net sales of SEK 2,250 thousand increased compared to the same period a year earlier (SEK 1,961 thousand) mainly due to higher sales volumes in domestic market Finland.

Materials and services expenses SEK 2,009 thousand (SEK 1,170 thousand) increased due to increased purchasing volumes.

Personnel expenses SEK 1,835 thousand (SEK 2,515 thousand) were clearly lower compared to the same period a year ago partly due to one-time option vesting during the corresponding period last year. Personnel expenses decreased by 10% compared to the previous quarter.

Other external expenses SEK 2,959 thousand (SEK -5,552 thousand) decreased clearly mainly due to high one-time costs during the corresponding period last year. Due to performed cost-cutting and cost optimization measures other operating expenses were 36% or SEK 1,642 thousand less than in the previous quarter.

EBITDA and EBIT were SEK –4,534 (-5,931) thousand and SEK –5,091 (-6,198) thousand for the quarter.

The Company's cash and cash equivalents were SEK 505 thousand at the end of the reporting period.

The Company will further continue to improve sales acceleration and products' commercialization actions started

in the fourth quarter 2022. The Company will continue to perform cost-cutting and cost optimization measures, that has resulted in decreased personnel expenses and other external expenses by SEK 1.9 million compared to the previous quarter (and SEK 3.8 million compared to the third quarter of 2022). Among other things the Company will further reduce use of the external service providers, continue to change to a more cost-efficient operation model, and further decrease the administrative costs.

NOTES TO JANUARY – MARCH INTERIM REPORT

NOTE 1 – ACCOUNTING PRINCIPLES

The interim report has been prepared in accordance with the Annual Accounts Act (1995:1554), chapter 9 Interim report.

BASIS FOR DRAWING UP THE INTERIM REPORT

Arctic Blue Beverages AB's financial report for the first quarter 2022 have been prepared as combined financial statements to illustrate historical financial information for a group of entities which was not legally a group, but which was owned by the same parties and with the same ownership shares that owned Arctic Blue Beverages Oy before the reorganization of the group.

The combined financial statements have been prepared for the purpose of being incorporated, by reference, into a prospectus because Arctic Blue Beverages AB issued shares and warrants that were listed on the Nasdaq First North Growth Market in Stockholm 12.5.2022.

The combined financial reports have been prepared in accordance with the Annual Accounts Act (1995:1554) and The Accounting Board's general advice BFNAR 2012:1 Annual report and consolidated accounts (K3).

The group's combined financial statements include the following companies:

- Arctic Blue Beverages AB
- Arctic Blue Beverages Oy
- Valamo Beverages Oy

Additionally in the group belongs following minor associate/ subsidiary companies which are under group transformation.

- Arctic Gateway Asia Pte. LtdArctic Brand House Oy (dormant)
- Arctic Brand House Cy (domant)
 Arctic Gateway India Private Limited Pty Ltd (dormant)

The companies listed above formed a group with Arctic Blue Beverages AB as parent company. Historically, consolidated accounts have not been drawn up, neither for Arctic Blue Beverages AB nor for Arctic Blue Beverages Oy. As part of the preparations for the listing on the Nasdaq First North Growth Market, the group was reorganized and a new company, Arctic Blue Beverages AB became the new Swedish parent company on April 8, 2022.

The combined financial statements represent the group of entities that became a group on 8 April 2022 when the inactive parent company in the group, Arctic Blue Beverages AB, through a non-cash issue acquired 100% of the shares in Arctic Blue Beverages Oy. At the same time Arctic Blue Beverages AB reduced its share capital by SEK 25,000 by withdrawing all 25,000 outstanding shares before the general meeting. Arctic Blue Beverages AB thereby became the new parent company for the Arctic Blue Beverages Oy group. Arctic Blue Beverages AB is included in the consolidated financial reports only from its formation on 20 January 2022 with a share capital of SEK 25,000. There are no rules in K3 for consolidated financial reports. Because K3 does not provide any specific guidance a commonly occurring accounting principle for the preparation of consolidated financial reports has been chosen meaning that Arctic Blue Beverages AB and the Arctic Blue Beverages Oy group are aggregated based on historical reported values in the Arctic Blue Beverages Oy group after adjustment to Arctic Blue Beverages AB's accounting principles.

All intra-group transactions between legal entities and the corporate group have been eliminated. Hence, the combined financial reports represent the economic activities for The Arctic Blue Beverages AB group which was formed on April 8, 2022. From April 8, 2022 onwards (in practise April,1, 2022) the group presents the consolidated financial reports (meaning that January – December 2022 is combination of combined and consolidated financial reports).

The principles are unchanged compared to those applied in the combined financial statements for first quarter 2022.

Below are the most essential principles:

Income

Revenue is valued at the fair value of what has been received or will be received, less discounts. When selling goods, the revenue is reported upon delivery.

Receivables
