

# Ekobot AB (publ) is granted a “Green loan” by Almi Företagspartner Mälardalen

**Almi Mälardalen AB has granted Ekobot AB (publ) a so-called green loan of approximately SEK 1.9 million. Almi's green loans aim to finance green initiatives that drive towards one or more of the six environmental objectives in the EU's taxonomy.**

Almi Företagspartner's green loans are aimed at small and medium-sized companies and are a financing product that enables green conversion and acceleration with clear business value. Almi's green loans focus on climate and other environmental issues, which are in line with the EU's 'the green deal', which is the EU's growth strategy and framework for measures to achieve the goal of the EU being climate neutral by 2050.

*- We are of course happy, from a financing perspective, that we have been granted a credit by Almi Företagspartner to continue our growth journey. The fact that we also qualified for the Green Loan is extra fun considering our ambition to clearly position our brand in the green transition, says Ekobot's CEO Erik Jonuks*

## About Ekobot

*Ekobot AB (publ), based in Västerås, conducts business based on the business concept of developing, manufacturing and selling autonomous agricultural robots that enable efficient precision cultivation where weed management takes place completely without or with minimal use of herbicides. The company's vision is to provide the agricultural sector with a long-term sustainable alternative for reducing or completely eliminating chemical spraying in crops of crops for human consumption. The company is listed on the Nasdaq First North Growth Market.*

## About Ekobot

---

Ekobot is the result of the founder Ulf Nordbeck's thoughts and desire to combine robotics and healthy sustainable food production. Ekobot's goal is to be able to offer practical and sustainable solutions to agricultural issues while reducing workload with autonomous tools for vegetable farmers. Ekobot has grown and combined today a team of experts in agricultural robotics with shareholders who share their convictions and understand the challenges of start-ups.
