

Envipco secures significant win in Poland

Amersfoort, 13 June 2025 – Envipco Holding N.V. ("Envipco" or "the Company"), a leading global provider of recycling systems and Reverse Vending Machine (RVM) technology, has today signed a letter of intent with a major Polish retail group appointing Envipco as one of the two RVM providers for its network of supermarkets across Poland.

Envipco will deliver RVMs to approximately 1,000 supermarkets in the retail group. The agreement further calls for expansion orders for new store openings. Delivery of the initial order is anticipated in H2 2025. The contract includes a 10-year service agreement on all RVM supplies.

"We are excited to announce this significant win with one of Poland's largest grocery retail groups ahead of the country's deposit return scheme (DRS) go-live in Q4 25. We are very happy to be appointed and fully committed to take on such an integral role across the group's growing base of supermarkets as they prepare for the DRS launch later this year. This is a strong testament to Envipco's leading products, services offering and our Polish organization" says Simon Bolton, Group CEO.
