HACKSAW OPENRGS WELCOMES ZERPLAAY GAMES AS NEW PARTNER STUDIO

Hacksaw OpenRGS has welcomed Zerplaay Games as its latest partner studio, further strengthening its growing ecosystem of independent game developers.

Through the partnership, Zerplaay Games will develop and launch its upcoming titles via OpenRGS, benefiting from Hacksaw Gaming's global distribution network and the tools needed to scale across multiple locally licensed online gaming markets.

Peter Van Treuren, Co-Founder and CEO of Zerplaay Games:

"At Zerplaay, we've built our studio around one simple belief: exceptional games are created when world-class game development meets cinematic storytelling. That's why we've brought together industry veterans from online gaming alongside professionals from the film industry, creating a team with a unique perspective on entertainment. Partnering with Hacksaw Gaming gives us the perfect platform to turn that vision into reality, delivering distinctive, high-quality titles to players across the globe. We couldn't be more excited for what lies ahead."

Marcus Cordes, Operational CEO of Hacksaw Gaming:

"One of the greatest strengths of OpenRGS is the variety of creative talent it continues to attract, and Zerplaay Games is another fantastic addition to the ecosystem. Their approach to combining game development with cinematic storytelling immediately caught our attention, and we're looking forward to working together as they bring that vision to operators around the world."

Through OpenRGS, partner studios gain access to Hacksaw Gaming's technology, distribution network and strategic expertise, helping accelerate development while bringing games to operators worldwide.
