

## OPTICEPT ENTERS INTO AN AGREEMENT WITH A WORLD-LEADING OLIVE OIL PRODUCER IN ITALY

OptiCept has today signed an evaluation agreement with one of the world's leading olive oil producers in Italy regarding oliveCEPT®. The technology will be evaluated in their production during the coming harvest season and then a decision will be made about further cooperation.

The agreement is for an oliveCEPT® THOR that will be integrated into their production line with a capacity of 2 tons per hour. The company is a family-owned business located in Tuscany, Italy. They are leaders in both high-quality wines and olive oil. They have been producing wine and olive oil for 30 generations and have 700 years of winemaking experience. The family business has been awarded numerous times for both its olive oil and wine, including Italy's most respected wine magazine Gambero Rosso naming them Winery of the year. Today, olives are grown on 300 hectares with a focus on the highest quality and sustainability.

"The company is well-known for its high-quality products and undeniably has an awe-inspiring history and great influence. This is a very good opportunity to establish oliveCEPT® among the leading quality producers in Italy". Says Thomas Lundqvist, CEO OptiCept Technologies.

The installation is planned to take place in October and will be evaluated during the harvest season.

## About Us

OptiCept Technologies AB (publ) provides the food and plant industry with technological solutions that contribute to a more sustainable world and enable climate-smart economic growth. OptiCept optimizes biological processes - Increased extraction from raw material, extended shelf life, reduced waste, and improved quality (taste, aroma, color, nutritional content) of the final product.

The positive effects of technology increase efficiency for our customers, better products for the consumers, and minimal impact on our environment. Through patented technology in PEF (pulsed electric field) and VI (Vacuum Infusion), the technology opens up new business opportunities for the food and plant industry worldwide. OptiCept's vision is to contribute to a sustainable world by offering efficient green cutting-edge technology that is easy to use in the areas of FoodTech and PlantTech.

The company is located in Lund and the share is traded on the Nasdaq First North Growth Market. Erik Penser Bank is a Certified Adviser and is available at 08-463 80 00 or **certifiedadviser@penser.se**.
