

Railcare appoints new positions and expands Group Management

Railcare is appointing two new positions to support the company's operations on its growth journey. Firstly, with a newly appointed HR Manager position, and secondly, a new Head of IR, Communication and Sustainability. The Group Management team will also change from the beginning of 2025.

Sofie Strömberg, who has extensive experience in Human Resources and organisational development, has been recruited as HR Manager and will be part of Group Management. Sofie comes most recently from a similar role at Skellefteå Taxi and has previous management experience from her role as Unit Manager at Skellefteå Municipality.

“At Railcare, Sofie's main task will be to work with personnel management. This involves everything from the work environment and working conditions to continuing to build the corporate culture so that Railcare remains an attractive employer,” says Mattias Remahl, CEO of Railcare.

At the same time, Hanna Hedlund has been appointed IR, Communications and Sustainability Manager, with the task of continuing to ensure the company's relations with investors and external stakeholders, as well as developing the Group's sustainability work. Hanna is already responsible for the group's external communication.

Railcare has previously announced that Johan Elveros will be the new CFO from January 2025 and that Hans Flodmark, Head of Safety, will also be part of Group Management.

“Together with all our fantastic employees, Railcare is well equipped to drive both vision and strategy forward, with the goal of achieving our ambitious goals for 2027,” concludes Mattias Remahl.

From 2025, Group Management will consist of:

Mattias Remahl, CEO

Johan Elveros, CFO

Jonny Granlund, Business Area Manager Construction and Machines and Technology

Johan Hansén, Business Area Manager Transport

Hans Flodmark, Head of Safety

Sofie Strömberg, HR Manager

Hanna Hedlund, IR, Communications and Sustainability Manager

About Railcare Group

The railway specialist Railcare offers innovative products and services for the railway; for example, railway maintenance with self-developed machines, a locomotive workshop, special transport and machine sales projects. Our market is mainly in Scandinavia and the United Kingdom. The railway industry is in a positive development with increasing traffic volumes, extensive investment programs, developing cost-effective freight and passenger transport, and rising environmental awareness. Railcare delivers both sustainable and efficient solutions that contribute to the railway, so it can be used for the maximum number of years to come. The shares of Railcare Group AB (publ) are listed on the Small Cap list of the Nasdaq Stockholm exchange. The Group has approximately 180 employees and annual sales of approximately SEK 550 million. The company's headquarters are in Skellefteå.
