

## Ortivus appoints Viveka Hiort af Ornäs as new CFO

**We are happy to announce the recruitment of Viveka Hiort af Ornäs as Ortivus' new Chief Financial Officer and as a member of the management team. Viveka succeeds Margareta Hagman, who has been acting CFO since October 2021.**

Viveka has solid experience and has previously been working in many IT and technology companies. She holds a Master's degree in International Economics from Stockholm University and has studied at the University of Technology in Sydney, Australia. Viveka has held several senior positions in finance at international companies and has also worked outside of Sweden. Her most recent role was CFO at the First North-listed company KebNi AB.

"We are very happy to welcome Viveka to Ortivus. Viveka has many year's experience working as an international CFO in various industries and listed companies. She possesses knowledge and skills that will be important assets for the company's further growth" says Reidar Gårdebäck, Ortivus' CEO.

Viveka takes office as Ortivus' CFO on March 8, 2022.

## About Ortivus

---

Ortivus develops and commercialises MobiMed, medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' products are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm and the company has, since 1998, a wholly-owned subsidiary based in the United Kingdom.

MobiMed is a modular platform that currently is used by over 12 000 paramedics in over 2 700 emergency vehicles. The platform consists of a monitor that in real-time measures, monitors and shares patients' vital parameters, such as, ECG, blood pressure and blood oxygenation. The system also consists of an electronic patient record for decision support, collection of patient data and clinical documentation.

MobiMed has a total weight of 2.5kg and is created to function in a demanding environment and out in the field. The two-way communication supports telemedicine consulting with clinical experts while patient data is seamlessly integrated into the medical records at the hospitals and primary care centers. MobiMed saves time and helps healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
