

BIMobject AB

Interim report: July-September 2026

Third quarter financial highlights

- Net sales of MSEK 44.4 (40.7), +9%. Adjusted for currency effects, sales increased by 10%
- Recurring revenue of MSEK 38.7 (34.3), +13% and adjusted for currency effects +14%, representing 87% of total net sales
- ARR in constant currencies of MSEK 160.9 (145.0) at end of quarter, +11%
- EBITDA of MSEK -0.9 (-6.9)
- Earnings per share amounted to SEK -0.03 (-0.03)
- Group cash flow from operating activities of MSEK -11.0 (-18.6)

January - September financial highlights

- Net sales of MSEK 130.0 (125.1), +4%. Adjusted for currency effects, sales increased by 8%
- Recurring revenue of MSEK 112.4 (102.7), +9% and adjusted for currency effects +13%, representing 86% of total net sales
- EBITDA of MSEK -31.2 (-45.6), including restructuring costs of MSEK -11.7 (-5.1)
- EBITDA excluding restructuring costs of MSEK -19.5 (-40.5)
- Earnings per share amounted to SEK -0.26 (-0.33)
- Group cash flow from operating activities of MSEK -21.9 (-31.1)

Events during and after the quarter

Aug 27 2026 - BIMobject expands Produkt ecosystem with three new data partners

CEO's Comments

Net sales up 9% and EBITDA improved by MSEK 6.0

BIMobject continued to grow in the third quarter, while significantly reducing the operating loss. Net sales increased by 9% to MSEK 44.4 (40.7), corresponding to 10% growth adjusted for currency effects. This was driven primarily by momentum in recurring revenue, which grew 13% to MSEK 38.7 (34.3). Annual Recurring Revenue (ARR) reached MSEK 160.9 (145.0) in constant currencies, an increase of 11% year-over-year.

At the same time, EBITDA improved by MSEK 6.0 to MSEK -0.9 (-6.9), driven by continued focus on cost efficiency and the impact of the new organisation. The reorganisation, initiated earlier this year, began delivering results in Q2 and reached its planned cost effect in Q3. The new organisation is now largely in place. It gives us a more efficient cost structure and makes it easier to bring the capabilities of our two business areas together into one integrated offering for our customers, which will help us execute faster.

Building one source of reliable product information

The construction industry relies on product data at every stage, from design and procurement to construction, operation and reporting. Today, the same product is often described in different ways in every system it passes through. This creates manual work and errors, and decisions are made on incomplete information. Reliable product information only creates full value when it can be reused. The same information needs to work for the manufacturer that creates it, the wholesaler that sells it and the project tools where products are specified.

BIMobject is well known for distributing BIM information. BIM content has always been more than geometry: it carries the technical product data that architects and engineers rely on. We are now building on this to deliver an even stronger platform for reliable product information in the construction industry. By bringing our capabilities together into one unified offering, we can collect, validate and distribute this information across the whole value chain.

Validating the platform with partners

In early October, we started a pilot together with one of our partners, a building product wholesaler. The partner can use our improved platform to structure, validate and share product and sustainability data across its value chain. It builds on and further develops functionality from our earlier products, and existing customers will move to it over time.

We chose to start with one partner so that we can test and adjust the solution closely, and spend our time on the product rather than on manual implementation work. During the autumn, we will develop it further based on the partner's feedback, and open it to more manufacturers, wholesalers and software partners over time. The improved platform is still in a phase of product development and validation, and revenue from it will build gradually.

In line with our strategy to be the central source of reliable product information, we also added three new data partners in project software: Plant, Nodon and Veriad. These partners use our product data in their own tools, which shows the value of the information we collect and extends its reach into real projects. By integrating directly into project workflows, we make structured product information available in the tools construction professionals use every day. Each new partner makes it more attractive for manufacturers to publish their data with us, and more data in turn makes the platform more valuable for every user.

A strong base to build on

We start from a strong position: global reach, established relationships with building product manufacturers, more than 1.5 million users who have downloaded product information from our website so far 2026, and offerings that are already part of the industry's workflows. With that base, we are confident that we can provide more value and be the central platform for reliable product information in the construction industry, with a broader offering that lets us address a larger part of the market.

Niklas Agevik, CEO

BIMobject in Brief

We are becoming the leading global provider of reliable product information for the construction industry, by delivering the right data in the right format to the right stakeholder at the right time.

From a Fragmented Reality to a Connected Ecosystem

Manufacturers today must update and manage their product data across multiple, separate databases to reach customers and partners. Our platform is built to let all stakeholders connect through one central source of reliable product information.

Compile: We enable manufacturers to create high-quality, standardised, and ready-to-use product data, structured to meet the needs of real projects.

Consume: We enable property developers, architects and engineers to consume reliable product information so they can make informed decisions.

Connect: We connect manufacturers, wholesalers, project tools and other stakeholders and their data, all in one place. This can be through integrations with databases or clients' internal systems.

Financial Summary

Group (MSEK)	2024 Q3	2024 Q4	2025 Q1	2025 Q2	2025 Q3	2025 Q4	2026 Q1	2026 Q2	2026 Q3

Net sales	43.1	43.3	43.4	41.0	40.7	43.5	43.0	42.6	44.4
Recurring Revenue	34.6	34.9	34.6	33.7	34.3	35.9	36.6	37.0	38.7
Other Platform	0.8	0.9	0.9	0.6	0.3	0.5	0.7	1.1	0.6
Services	7.6	7.5	7.9	6.7	6.1	7.1	5.7	4.5	5.0
EBITDA	1.0	-3.8	-18.1	-20.6	-6.9	-9.9	-8.6	-21.7	-0.9
Operating result (EBIT)	-0.8	-6.3	-20.2	-23.1	-10.2	-13.8	-12.4	-25.7	-4.8
Cash flow from operating activities	-5.3	-7.2	1.7	-14.2	-18.6	-14.9	1.2	-12.1	-11.0

Recurring Revenue

Annual Recurring Revenue (ARR) is a key metric for understanding the revenue development within our Platform business, since net sales can be affected by the timing of revenue recognition, corrections and even variation of days between quarters. We report this metric in constant currencies, using the exchange rate on the last working day of the quarter.

Annual Recurring Revenue

MSEK, constant currencies

In Q3 2026, ARR in constant currencies grew by 11% year-over-year and 3% quarter-over-quarter. Underlying development during the quarter includes continued improvement of average revenue per contract as well as improved churn metrics in the EMEA region.

Net Sales

Net sales in the quarter amounted to MSEK 44.4 (40.7), +9% compared with the same period of the previous year. Underlying, Platform revenue is growing at a higher pace than total net sales while Services revenues decreased. The currency effect was still negative year-over-year, but limited. The SEK has weakened during 2026. Adjusted for currency effects, net sales increased by 10% year-over-year.

Net sales by type

MSEK

Recurring revenue grew by 13% year-over-year and amounted to MSEK 38.7 (34.3), and represented 87% (84%) of total net sales. Adjusted for currency effect, recurring revenue increased by 14% year-over-year. Other Platform revenue amounted to MSEK 0.6 (0.3) and relates to one-off campaigns on bimobject.com. Services net sales improved quarter-over-quarter but at a somewhat lower level compared to previous year at MSEK 5.0 (6.1).

Operating Result

Operating result before interest and tax, EBIT, amounted to MSEK -4.8 (-10.2) during the quarter. The underlying year-over-year improvement is due to growth in Platform revenue together with lower costs, mainly from fewer external consultants and FTEs. Depreciation and amortisation of intangible assets increased somewhat, due to the acquisitions in August 2025.

EBIT

MSEK

Other external costs amounted to MSEK 14.7 (18.3). The decrease is mainly due to lower costs for external consultants and lower bad debt losses.

Personnel costs were flat at MSEK 32.7 (32.6) year-over-year, despite fewer employees. Several factors offset the lower headcount. Senior management costs are higher than last year. Employees from the August 2025 acquisition were only included for part of last year's quarter. The vacation effect was smaller this year, and sales commissions were higher. General salary inflation also contributed. Compared with previous quarters in 2026, personnel costs decreased significantly. This is primarily due to the reorganisation in Q2 and partly due to the vacation effect.

Operating costs

MSEK

Financial Net

Net financial items amounted to MSEK 1.0 (2.8) in the quarter, including currency conversion on non-operational balance sheet items as well as return on liquid assets. The contribution from liquid assets, as defined in definitions, was MSEK 0.4 (3.0) in the quarter. The unrealised and unbooked excess value in current investments was at MSEK 1.5 at the end of the quarter, which is MSEK +0.3 compared to the previous quarter. The return on liquid assets is a mix of interest on bank balances and return on current investments, where the return on current investments consists of both interest coupons and value development in corporate bonds and interest/bond funds.

Cash Flow, Cash & Cash Equivalents

Cash flow from operating activities in the quarter amounted to MSEK -11.0 (-18.6). The operating cash flow in the quarter is weaker than the operating result due to the seasonal pattern with annual billing, as well as accrual of reorganisation costs in Q2, partly paid out in Q3.

Cash flow from financing activities amounted to MSEK 2.1 (2.3), related to subscription warrants, and the exercise of LTIP 2023 warrants in particular.

Available liquid assets were MSEK 137.0 (171.4) at the end of the period, whereof cash and cash equivalents MSEK 32.5 (56.3) and short-term investments MSEK 104.5 (115.1).

Equity & Liabilities

Total equity was MSEK 131.4 (173.1) at the end of the period. The company received a capital contribution through the exercise of subscription warrants of MSEK 2.1 in the third quarter. The equity/assets ratio was 54% (61%) on 30 September. The group has no loans from credit institutions.

Other Information

Events During and After the Period

Aug 27 2026 - BIMobject expands Produkt ecosystem with three new data partners

Warrants & Incentive Programs

The company has four active subscription warrant programs:

- LTIP 2024, expires in August 2027
- LTIP 2025, expires in August 2028
- Acquisition warrants GreenMetrica AB, expires in August 2028
- LTIP 2026, expires in June 2029

Full terms and conditions for warrants can be found on the Company's website
<https://investors.bimobject.com>.

BIMobject AB's Share

BIMobject AB is listed on Nasdaq First North Growth Market.

Earnings per share (EPS) for the quarter amounted to SEK -0.03 (-0.03). After dilution, EPS amounted to SEK -0.03 (-0.03).

The average number of shares during the quarter was 150,729,269 and the average number during the year was 148,892,182. The total number of shares at the end of the quarter was 151,177,639 (147,668,814). All shares carry an equal share of votes and capital.

The table below shows BIMobject's largest shareholders at the end of the period.

Owners	Number of shares	Share of capital and votes
David Johansson	23,908,819	15.82%
Håkan Blomdahl	17,490,783	11.57%
Jan Karlander	13,132,720	8.69%
Nordnet Pensionsförsäkring	9,738,515	6.44%
Avanza Pension	8,718,200	5.77%
Lars Jörnöw	8,057,588	5.33%
Green Vision Invest AB	2,984,801	1.97%
Johannes Reischböck	2,062,000	1.36%
Procedural Labs AB	2,033,900	1.35%
Martin Lindh	1,723,000	1.14%
Total ten largest owners	89,850,326	59.43%
Other shareholders	61,327,313	40.57%
Total shares	151,177,639	100%

Data provided by Monitor.

Employees

The number of employees in the Group on 30 September 2026 was 137 (157).

Parent Company

The Parent Company's operating income for the quarter amounted to MSEK 29.3 (23.7) and operating costs amounted to MSEK 37.1 (35.5). The result before appropriations and tax for the same period was MSEK -6.6 (-8.8). Equity was MSEK 131.9 (194.1).

Forward-Looking Information

This report may contain forward-looking information based on management's current expectations. Although management believes the expectations expressed in such forward-looking information are reasonable, there are no assurances that these expectations will be correct. Consequently, future outcomes may vary considerably compared to the forward-looking information due to, among other things, changed market conditions for our products and more general changes to economic, market,

and competitive conditions, changes to regulatory requirements or other policy measures, and exchange rate fluctuations.

Upcoming Reports

BIMObject AB prepares and publishes a financial report after the end of each quarter.

Upcoming reports and events are scheduled as follows:

Report / Event	Date
2026 Year-end Report	11 February 2027
Q1 Interim Report	4 May 2027
Annual General Meeting	20 May 2027
Q2 Interim Report	29 July 2027
Q3 Interim Report	28 October 2027
2027 Year-end Report	10 February 2028

Presentation

Shareholders, analysts and the media are welcome to a digital report presentation on 22 October 2026 14:00 (CEST). The presentation will be held in English via Zoom.

Notes

Accounting and Valuation Principles

This interim report has been prepared in accordance with the Swedish Annual Accounts Act. The accounting and valuation policies applied follow the Swedish Accounting Standards Board's BFNAR 2012:1 (K3) and are unchanged since the latest published annual report.

Amounts are reported in Swedish kronor and rounded to the nearest thousand unless otherwise stated. Amounts and figures stated in brackets are comparatives for the corresponding period of the previous year, unless otherwise stated.

The registered Parent Company is BIMObject AB.

Auditor's Review

The interim report has not been reviewed by the Company's auditor.

Risks and Uncertainties

BIMObject is, through its operations, exposed to common business and financial risks. These risks are described in detail in the latest annual report.

Transactions with Related Parties

Any transactions with related parties have been conducted on market terms.

Definitions

Annual Recurring Revenue (ARR)

The annual contract value of all active subscription contracts per the last day of the quarter, using the exchange rate on the last working day of the quarter. For better quarter-over-quarter comparison, all previous quarters are calculated using the same exchange rate as the current quarter.

Cash Flow from Operating Activities per Share

Cash flow from operating activities divided by the average number of shares outstanding.

Currency-adjusted growth

Growth calculated with prior-period figures translated at current-period exchange rates.

EBITDA

Operating result before depreciation on tangible and intangible non-current assets. The purpose is to assess the Group's operational activities. EBITDA is a supplement to operating result (EBIT).

EBITDA excluding restructuring costs

EBITDA excluding costs for notice periods, severance and related costs attributable to the reorganisations in 2025 and 2026.

Growth in Net Sales

The measure shows %-growth in net sales compared to the same period during previous year.

Liquid Assets

Cash and cash equivalents and short-term investments as the short-term investments are deemed to consist of securities with relatively low risk traded at a liquid market that enables liquid cash generally within a couple of days if called upon.

Operating Result, EBIT

Operating result according to the income statement.

Operating Margin, EBIT (%)

Operating result in relation to net sales.

Platform Revenue

Consists of subscription fees, advertising fees and joint venture license fees through our platforms.

Recurring Revenue

Revenue of annual recurring nature, referring to subscription revenue within our Platform business, such as contracts with manufacturers publishing their products on bimobject.com and prodikt.com. Recurring revenue comprises the main part of Platform net sales.

Services Revenue

Consists of revenue from services provided to our customers, such as projects for creating BIM objects, as well as Life Cycle Assessments (LCAs) and Environmental Product Declarations (EPDs).
