
Byggfakta Group announces changes to Group Management

Adrian Jakobsson, CTO and member of Group Management has chosen to leave Byggfakta Group to proceed with his career outside the company. Adrian will leave Group Management today but will remain in an advisory role during a brief transition period.

"I would like to take this opportunity to thank Adrian for his contribution as CTO and member of Group Management at Byggfakta Group," says Stefan Lindqvist, CEO of Byggfakta Group.

The role as CTO at Byggfakta Group has been assumed on an interim basis by Pär Fack.

About Byggfakta Group

Byggfakta Group, headquartered in Ljusdal, Sweden, with origins dating back to 1936, is a leading digital platform providing solutions connecting construction value-chain participants, maximising sales and improving efficiency for its customers. The Company's core offering lies across four product segments, targeting different stakeholders in the construction value chain, namely (i) Project Information – a business intelligence sales lead platform; (ii) Specification – specification software digitalising the specification writing process; (iii) Product Information – an online platform that allows suppliers to showcase their products online, and provides buyers with a comprehensive catalogue of curated construction products; and (iv) e-Tendering - eSourcing and eProcurement software.
