The presentation will be held in English and will also be accessible on the company's website, www.byggfaktagroup.com, following the event.

About Byggfakta Group

Byggfakta Group, headquartered in Ljusdal, Sweden, with origins dating back to 1936, is a leading digital platform providing solutions connecting construction value-chain participants, maximising sales and improving efficiency for its customers. The Company's core offering lies across four product segments, targeting different stakeholders in the construction value chain, namely (i) Project Information – a business intelligence sales lead platform; (ii) Specification – specification software digitalising the specification writing process; (iii) Product Information – an online platform that allows suppliers to showcase their products online, and provides buyers with a comprehensive catalogue of curated construction products; and (iv) e-Tendering - eSourcing and eProcurement software.
