

Modular Finance approved by the FCA as a primary information provider in the U.K.

Modular Finance has been approved by the Financial Conduct Authority (FCA) as a Primary Information Provider (PIP) in the U.K. This approval allows U.K.-listed companies to use Modular Finance's platform, MFN, as a single source for distributing regulatory news.

Being a FCA-approved Primary Information Provider authorises organisations to distribute regulated information, such as financial announcements, on behalf of publicly listed companies.

Modular Finance's product, MFN, is a platform for the distribution of regulatory announcements and non-regulatory news, used by more than 550 listed companies in the Nordics. With this FCA approval, Modular Finance is expanding its offering to the U.K. market, providing a reliable and user-friendly solution for companies to meet their regulatory obligations and communication objectives as well as distributing news to major platforms such as Bloomberg, FactSet, Eikon and tailored target audiences via e-mail.

"We are thrilled to receive this approval from the FCA and look forward to making MFN available to U.K.-listed companies as the sixth approved PIP in the country" says Matt Sayer, General Manager U.K. at Modular Finance. "With a proven track record in the Nordic markets, we are confident that MFN will prove itself as a trusted and well-regarded choice for regulatory announcements in the U.K. as well."
