

PRESS RELEASE

February 3, 2024

Join Ziccum CEO Ann Gidner for 'Invest Live', a live digital presentation and Q&A, Tues Feb 6th

Join Ziccum CEO Ann Gidner on Tuesday 6 February for 'Invest live' as she presents Ziccum's unique technology for biopharmaceuticals and its groundbreaking new mRNA data at a live digital event with Investor Target. Participants may post questions ahead of the event and watch live at the link below.

At 12.00 noon on Tuesday February 6 Ziccum CEO Ann Gidner will present the Company at "Invest Live" hosted by Investor Target analyst Kaarlo Airaxin. The event will take place in Swedish.

Ann will cover Ziccum's formulating and drying technology LaminarPace, how it can turn delicate vaccines and biologics including mRNA into robust thermostable dry powders, the market opportunity for this, and the Company's outstanding performance over the last 18 months.

Mail your questions ahead of the event here: kaarlo.airaxin@investortarget.se

About Ziccum

Ziccum is developing LaminarPace™, a unique drying method for biopharmaceuticals and vaccines based on mass transfer, not heat transfer. The technology is offered by licensing to vaccine and biologics developers and manufacturers in the global pharmaceutical industry. By reducing drying stress to the active ingredient, LaminarPace™ uniquely enables particle-engineered, thermostable dry powder biopharmaceuticals which can be easily handled and transported and are highly suitable for novel administration routes. The technology has been successfully applied to mRNA, peptides, proteins, antibodies, lipids and enzymes as well as excipients and adjuvants, and is well suited for industrial application. Ziccum is listed on the Nasdaq First North Growth Market.
