

Obducat receives European order concerning photolithography equipment from NxQ

Obducat has received an order from a customer in Europe for an optical aligner system delivered by the company's American partner NxQ (Neutronix Quintel). The order value amounts to SEK 4.8 million and delivery is expected to take place during the first half of 2026. Obducat acts as distributor in the transaction and receives a lower margin compared to sales of the company's own lithography systems.

The ordered system is an advanced optical lithography system configured for multiple types of UV-based resist exposure, including high-precision overlay alignment. The equipment will be installed in the customer's newly built cleanroom environment and is intended to support their continued expansion in micro- and nanostructure fabrication.

About NxQ

NxQ manufactures photolithography and metrology equipment for customers developing and producing a wide range of semiconductor technologies, including MEMS, Wafer-Level Packaging (WLP), 3DIC, System-in-Package (SiP), Compound Semiconductors, Microfluidics, Optoelectronics, and Bioscience devices. NxQ was founded by industry veterans and has been designing and manufacturing mask aligners for over 37 years. About Obducat AB (publ)

Obducat AB (publ) is an innovative developer and supplier of technologies, products and processes used for the production and replication of advanced micro and nano structures. Obducat's products and services serve the demands of customers worldwide within the LED and Display, Optics and Photonics, MEMS and Sensor industries as well as in High Power and High Frequency electronics and Biomedical Devices. Obducat's technologies include nano imprint technology, resist- and wet processing technologies. Obducat has its own market presence in Sweden, Germany, Japan, USA, England, Portugal and China and the headquarter is located in Lund, Sweden. Obducat is a public company. The Obducat share is traded on the Swedish NGM Main Regulated Equity exchange. Read more at www.obducat.com or contact us via email investorrelations@obducat.com
