## Fasadgruppen to carry out energy renovation of apartment buildings in Huddinge in Stockholm

**Fasadgruppen's subsidiary FRONT has signed a contract with housing company Victoriahem to carry out an extensive renovation with energy efficiency measures on four apartment buildings in Huddinge, Stockholm.**

The buildings were built as part of the Swedish public housing 'million programme' and are in need of modernisation. The project includes measures on the entire climate shell; façades, windows, doors, roofs and balconies, as well as ventilation. The order value amounts to approximately SEK 45 million.

Peter Polland, Business Area Manager of Fasadgruppen NorthEast said: "We are proud to help Victoriahem modernise these properties. By taking a holistic approach, the energy performance will be significantly improved, while the living environment gets a big boost. The project is very timely considering the EU's upcoming requirements for higher energy efficiency in properties."
