

CHEFFELO ANNOUNCES PRELIMINARY EBIT FOR THE FOURTH QUARTER DUE TO INCREASED OPERATING PROFIT

Cheffelo, a profitable Scandinavian supplier of mealkits, today issues a preliminary EBIT for the fourth quarter, ahead of plan. The preliminary and unaudited operating profit (EBIT) for Q4 2025 amounts to approx. MSEK 36.8 (29.4) representing an increase of approx. MSEK 7.4 compared to Q4 2024. That equals an operating profit (EBIT) of MSEK 73.5 (41.7) for the full year 2025, an EBIT margin of 6.2% (3.9).

Cheffelo chooses to publish this preliminary result due to a higher than anticipated increase in operating profit during the fourth quarter of 2025.

As reported in Cheffelo's Trading update (2026-01-13) Net sales for October – December 2025 amounted to MSEK 323.6 (296.6), an increase of 9.1% vs last year. Adjusted for currency effects, Net sales growth was 12.6%. Net sales in Q4 include a calendar effect, as the quarter had one delivery week less than the corresponding period in 2024. For the full year 2025, Net sales reached MSEK 1188.0 (1058.2), an increase of 12.3% versus 2024, or 15.1% when adjusted for currency effects.

Active customers in the fourth quarter were 78.4 thousand (69.1), an increase of 13.5% versus last year.

The company's Q4 and full year report will be published on February 19, 2026, as previously communicated. Cheffelo will invite investors, analysts and the media to a conference call and webcast with Q&A, taking place on that day.
