

# Hilbert Group Publishes KPIs for August 2026 in New Reporting Format

**Hilbert Group AB (Nasdaq First North: HILB B) today announced the release of its August 2026 KPIs, the first in its new reporting format.**

The report covers Hilbert Capital, Xapo Byzantine, Hilbert Finance and Enigma, together with Syntetika, the platform Hilbert backs.

The report introduces a new measure: fee-paying assets under management at the previous month-end bitcoin price, which shows business growth independent of the bitcoin price. Hilbert Group welcomes shareholder feedback on the new format at [ir@hilbert.group](mailto:ir@hilbert.group).

Note that strategy returns are now shown gross of fees; earlier reports showed returns net of management and performance fees and transaction costs, so the figures are not directly comparable. Fees and costs are deducted from gross returns before fund investors receive their net return. Hilbert's cash generation therefore follows gross returns, which makes them the relevant measure for shareholders.

As KPI reporting now prioritises business revenue generation and growth, MultiStrat, which represented approximately 0.6% of fee-paying assets under management, will no longer be included in the monthly report.

The Hilbert Capital pipeline will be reported quarterly, giving management adequate time to verify the figures before publication.
