Panzerdogs and Cosmocadia heading for console – release on SuiPlay

Fragbite Group ABs (publ) subsidiary Lucky Kat's web3 games – *Panzerdogs* and *Cosmocadia* – are part of the launch offer on the SuiPlay console, releasing later in 2025. The two games will then be available across PC and mobile as well as console, also integrated with the \$KOBAN token which allows \$KOBAN exposure to a wider audience.

The SuiPlay Console is a web3 gaming device developed by Lucky Kat partner and \$KOBAN investor Mysten Labs, originator of the Sui blockchain. The Suiplay integrates blockchain technology into a handheld, console gaming device similar to the Nintendo Switch or the Playstation Portal. After a period of pre-order during which all units sold out, the SuiPlayOX1 is scheduled to begin shipping later in 2025.

Panzerdogs and *Cosmocadia* are among the currently 10 games that make up the initial offer on the SuiPlay. This will allow greater exposure for the games and in extension the \$KOBAN token which is released today on public exchanges, and directly integrated in *Panzerdogs* ([LINK](#)) \$KOBAN will be integrated into *Cosmocadia* as well later in 2025.

The SuiPlay manages Sui-based crypto wallets and digital assets alongside running on an operating system compatible with global PC game stores such as Steam and Epic Game Store. *Panzerdogs* and *Cosmocadia* will thus also be made available via these stores.
