

QleanAir supports the German space industry with air cleaning solution

QleanAir AB (publ), the premium provider of solutions for clean indoor air, announces a strategic partnership with German space company OHB SE. QleanAir in collaboration with OHB SE have signed a contract to deliver a customized clean zone solution.

QleanAir has won a contract to develop customized clean zone solution. QleanAir was the only supplier able to find a viable solution that met the high requirements for quality, flexibility, and know-how.

- At QleanAir we are very excited about our co-operation with OHB and about the opportunity to create a clean environment in such a high demanding industry as the space industry, says Christina Lindstedt, Chief Executive Officer, QleanAir.

The unique and customized solution is based on QleanAir's modular cleanroom components and will create a clean zone with the highest possible technical cleanliness without having to build an actual cleanroom. The order value is 31 K EURO and installation is planned for Q4 2022. This is expected to be the first of further deals.

- We are happy about this strategic collaboration with OHB which is a good testament to our unique set of strengths and capabilities, says Pontus Grimberg, Vice President Sales, QleanAir Europe. We look forward to many more exciting projects within this strategic partnership.

OHB SE, headquartered in Bremen, is one of Europe's giants within the space industry. OHB SE employs close to 3 000 people on 14 locations in 10 countries across Europe. The company develops solutions for space, aerospace, and aviation and is the third largest space organization in Europe.
