

Fireshine Games announces the release date for 'Gestalt: Steam & Cinder', alongside major update and console launch of 'Shadows of Doubt'

Fireshine Games has revealed new announcements for two titles from its exciting games line-up, including the release date for the eagerly anticipated action-RPG Gestalt: Steam & Cinder, launching May 21st on Steam, and a console announcement for the award-winning detective sim 'Shadows of Doubt', coming to PlayStation 5 and Xbox Series X|S later this year. A major new content update for the PC version of Shadows of Doubt, 'The Sharpshooter Assassin', is also available now.

Gestalt: Steam & Cinder is published by Fireshine Games and developed by Metamorphosis Games. The game Gestalt: Steam & Cinder invites players to unleash their inner flame as Aletheia, an elite mercenary of the Steam City of Canaan, in an all-new adventure inspired by classic Metroidvanias and action-RPGs.

Shadows of Doubt is an open-world, immersive sandbox detective stealth game set in a fully simulated sci-fi noir city of crime and corruption. The game was released on Steam Early Access in April 2023 and has achieved critical and community acclaim with 92 percent positive reviews on Steam. The game was also nominated for the 'Most Innovative Gameplay' award at the 2023 Steam Awards and was previously awarded Ukie's UK Game of the Show at Gamescom 2022.

The Sharpshooter Assassin update is available to download on PC now, introducing a brand-new type of killer for budding detectives to investigate. Embark on a manhunt to track down a sniper in this thrilling new case type, and discover new points of interest to explore, new perks to unlock, and a range of quality-of-life improvements.
