

Postponement of publication of Annual Report 2025 and Q4 2025 results

Company Announcement no. 141/2026 (March 26, 2026 at 13:40:00 CET)

LED iBond International A/S (“LED iBond” or the “Company”) hereby announces that the Company will postpone the publication of its Annual Report for the financial year 2025, including Q4 2025 results

The Annual Report 2025 was scheduled for publication today 26th of March. Due to ongoing finalisation of the audited financial statements, Management has decided to postpone the publication to no later than April 30th. Any consequential impact on date for the annual general meeting will be communicated at that time, with a minimum of 3 weeks notice as per the Articles of Association.

According to company Announcement no. 138/2026 (January 23, 2026) Nasdaq Copenhagen A/S has approved the Company's request for deleting the admission to trading of the company's shares on Nasdaq First North Growth Market Denmark. The last day of trading in shares of LED iBond A/S on Nasdaq First North Growth Market Denmark will be April 7th 2026.

We continue to encourage all shareholders to ensure name registration of their holdings before the last day of trading. Shareholder communications after this date depends on updated and correct contact information.

When finalised, the audited accounts together with an invite for the ordinary general meeting (AGM), will be sent directly to registered shareholders and published on the company's website.

About LED iBond International A/S

Founded in 2014, LED iBond offers sustainable, innovative lighting solutions, based on years of development and deep knowledge of modern LED technology combined with advanced packaging and simple assembly technology.

LED iBond is focusing on three key business lines: Parking Facilities (Parking Houses & Solar Carports), Indoor Farming (Greenhouses & Vertical farms) and Service Stations (Canopies & Car wash).

Our technology platforms TRACY®, GRACY™ and HORTISABER™ offer unique value propositions.

TRACY® and GRACY™ are developed to meet demands for high design flexibility, robustness, easy integration into building construction, less cables and low total costs of ownership due to market leading energy efficiency.

HORTISABER™ is a new generation of LED grow lights for indoor farming. It's developed to meet the demands from modern greenhouse productions with outstanding energy efficiency, light uniformity, superior passive cooling design that enhances the lifespan significantly and the unique linear slim-line design ensures minimal daylight shadow.

LED iBond's lighting solutions have been installed in many large-scale projects ranging from Parking Houses, Charging Hubs, Solar Carports and Greenhouses to customised illumination projects such as shopping centres, intelligent shelf lighting and elevator ceilings.

LED iBond is a Danish design and manufacturing company.

LED iBond International A/S is admitted to trading on Nasdaq First North Growth Market Denmark (ticker: LEDIBOND).
