

Arcario's K33 Markets Officially Live: Professional Clients Can Now Apply for Access

Arcario, the Scandinavian powerhouse in digital assets and web3 technologies, is thrilled to announce the official launch of K33 Markets, the premium service platform for High Net Worth Individuals and Family Offices across the EMEA region.

Following a successful beta testing phase, early access clients are now invited to commence trading immediately. New clients eager to experience the unparalleled features of K33 Markets can apply for access via k33.com/markets.

As a professional broker, K33 Markets stands as a beacon of efficient and reliable trade execution for both small and large orders at market-leading rates. This ensures K33 clients can enter and exit market positions in seconds, irrespective of trade volume.

K33 also prioritizes currency flexibility, offering its clientele the ability to deposit, trade against, and withdraw in a range of fiat currencies including NOK, USD, EUR, GBP, CHF, DKK, and SEK. This eliminates the friction of costly currency conversion fees, heightening user experience.

Moreover, K33's real-time support extends to interfacing directly with clients' banks. This ensures all necessary documentation is provided to facilitate the smooth acceptance of withdrawn funds.

"In our relentless pursuit of perfection, we're thrilled to share that even though K33 Markets is already fully operational, we have a multitude of exciting enhancements lined up," said Torbjørn Bull Jenssen, CEO of K33 and Arcario. "In the coming weeks, clients will witness a series of rapid developments, including a revamped trade interface."

For the best trading experience, it is recommended that users access K33 Markets via a desktop or tablet device. "We are acutely aware of the increasing importance of mobile compatibility. Rest assured, a seamless mobile experience is in advanced stages of development and will be rolled out soon," added Jenssen.
