# HACKSAW WELCOMES ALOHA GAMING AS NEW PARTNER STUDIO ON OPENRGS

Hacksaw Gaming continues to expand its OpenRGS platform with the addition of Aloha Gaming, a studio focused on delivering bold, true 3D slot experiences powered by innovative gameplay mechanics.

Aloha Gaming becomes the eleventh studio that has joined the OpenRGS ecosystem.

Bringing together a strong emphasis on visual storytelling and memorable gameplay flow, Aloha Gaming aims to stand apart through a distinctive design philosophy inspired by classic 8-bit and 16-bit console gaming. The studio combines playful visuals with modern mechanics, creating games designed to feel dynamic and instantly recognisable.

A key part of Aloha Gaming's approach is its proprietary BoosterBelt™ mechanic, developed to enhance what the studio describes as the "Meta Game" - building anticipation, potential and excitement beyond what appears on screen. Their debut title, TikiTopia BoosterBelt™, combines medium volatility with high win potential, delivering a gameplay experience designed to appeal to a broad spectrum of players.

### **Stuart McCarthy, Co-Founder and Chief Product Officer of Aloha Gaming:**

*"We are thrilled to announce our arrival as the newest partner on the esteemed Hacksaw OpenRGS program and would like to give a huge thanks to the team at Hacksaw for the warmest of welcomes.*

*With Aloha we set out to break new ground with our 3D presentation and unique BoosterBelt™ mechanics, so it feels natural to be working so closely with such a dynamic and innovation-focused partner."*

### **Marcus Cordes, Operational CEO of Hacksaw Gaming:**

*"Aloha Gaming combines strong visual identity with a clear focus on innovative gameplay experiences. Their ambition to push technical and creative boundaries makes them an exciting addition to the platform, and we're looking forward to seeing their vision come to life."*
