

Ekobot AB (publ) receives support for consulting initiatives from Region Västmanland

REGION VÄSTMANLAND grants Ekobot AB 559096-1974 support with a maximum of SEK 313,550 to purchase consulting services from Bergia Solutions, Emaus Mekaniska and Sörens Mekaniska according to the support documentation below. The grant may amount to 50% of the approved support basis.

The grant is so-called negligible aid under Commission Regulation (EU) No 1407/2013.

REGION VÄSTMANLAND: The motivation for the decision is that the investment contributes to sustainable growth and competitive companies in all parts of Sweden.

The basis for the VÄSTMANLAND REGION's decision is the ordinance (2015: 210) on state support for regionally promoting small and medium-sized enterprises.

About Ekobot

Ekobot AB (publ), based in Västerås, conducts business based on the business concept of developing, manufacturing and selling autonomous agricultural robots that enable efficient precision cultivation where weed management takes place completely without or with minimal use of herbicides. The company's vision is to provide the agricultural sector with a long-term sustainable alternative for reducing or completely eliminating chemical spraying in crops of crops for human consumption.

The company is listed on the Nasdaq First North Growth Market.

About Ekobot

Ekobot is the result of the founder Ulf Nordbeck's thoughts and desire to combine robotics and healthy sustainable food production. Ekobot's goal is to be able to offer practical and sustainable solutions to agricultural issues while reducing workload with autonomous tools for vegetable farmers. Ekobot has grown and combined today a team of experts in agricultural robotics with shareholders who share their convictions and understand the challenges of start-ups.
