

Diadrom receives an order from a global leading producer of outdoor power products and innovative solutions for forest, park and garden care

Diadrom Systems AB, a wholly owned subsidiary of Diadrom Holding AB (publ), is a leading software company that offers services and own products in diagnostics by Autotech, has received an order from a global leading producer of outdoor power products and innovative solutions for forest, park and garden care.

The order refers to expert consultation for further development of a production related system.

"Diadrom offers expertise and complementary products in diagnostics of Autotech. It includes the development of embedded software, but also software development of IT systems related to lifecycle management. Here, our expertise and long experience are very relevant and applicable to the customer and we are very proud to receive this assignment and hope for a long productive collaboration," says Carl Johan Andersson, CEO, Diadrom.

The value of the order, approximately 100 000 SEK, is not significant at this stage, but the management of Diadrom believes that the order is strategically important.
