

DURA ACQUIRES CC PLÅT & TAK – STRENGTHENING ITS POSITION IN PROPERTY MAINTENANCE

Dura continues to grow – and we are pleased to welcome CC Plåt & Tak to the Dura family.

Since its founding, CC Plåt & Tak has established itself as a reliable and skilled player in roofing and sheet metal work. With strong local roots and a clear focus on quality, service, and craftsmanship, the company is a valuable addition to our network of specialized companies focused on the maintenance and upgrading of Sweden's property portfolio.

“There is a clear strategic match between CC Plåt & Tak and Dura. Their expertise complements our offering and strengthens our ability to take a comprehensive approach to the lifecycle of buildings,” says Niclas Winberg, CEO at Dura.

Together, we continue to build a strong and long-term sustainable offering within property infrastructure – where each subsidiary retains its identity while growing through collaboration, business development, and knowledge sharing.

A warm welcome to Dura!
