

WindowMaster Raises Its Expectations for the 2025 Financial Year

WindowMaster announced yesterday that the company is raising its expectations for EBITDA for the 2025 financial year following strong business momentum.

Previously, WindowMaster expected revenue in the range of DKK 268–275 million with EBITDA of DKK 23–26 million. Based on strong business momentum, the company decided yesterday to raise its financial guidance for the 2025 financial year.

WindowMaster now expects revenue in the range of DKK 269–270 million with EBITDA of DKK 26.5–27.5 million, corresponding to an EBITDA margin of 9.9–10.2%. The reasons for the upgrade are a strong end to the year across markets as well as continued execution of the strategy "Accelerate Core".

The announcement does not change WindowMaster's guidance for 2026, where the company expects solid growth. For the coming financial year, WindowMaster expects revenue in the range of DKK 290–310 million with EBITDA of DKK 45–55 million.

WindowMaster expects to publish its annual report for the 2025 financial year on 25 March 2026.
