

Intellego advances the publication date to 10 November 2025 of its interim report for Q3 2025

Intellego has decided to advance the publication of its interim report for Q3 2025 to 10 November 2025. The previously communicated publication date was 27 November 2025.

The report is being advanced as it will be completed earlier than planned, thanks to the company's new finance team and an enhanced reporting process. The company also intends to publish future interim reports closer to the end of each respective quarter.

About Us

Intellego Technologies develops and manufactures color indicators that show the effect of irradiation with, among other things, invisible ultraviolet light, UV light. Color indicators are used globally in, for example, the disinfection industry, the sunscreen industry, and the manufacturing industry. Intellego's indicators have been developed from the company's patented photochromic ink, which can be adapted to different wavelengths of light and various application areas across a range of different industries. Intellego Technologies was founded in 2011, is headquartered in Stockholm, and is listed on the Nasdaq First North Growth Market.

The company's Certified Adviser on the Nasdaq First North Growth Market Stockholm is Mangold Fondkommission AB.
