

FlexQube receives orders worth approximately SEK 4 million

FlexQube has received orders with a total value of approximately SEK 4 million from a leading electric vehicle manufacturer in Germany. The orders include material handling carts and represent a continuation of a long-standing customer relationship, where FlexQube has delivered several thousand carts to the customer's production operations since 2021.

Deliveries are expected to take place primarily during the third quarter of 2026.

About FlexQube

FlexQube is a technology company headquartered in Gothenburg, Sweden with subsidiaries in USA, Mexico, Germany and England. FlexQube offers solutions for cart-based material handling using a patented modular concept. FlexQube develops and designs customized solutions for both robotic and mechanical cart logistics. Through the own developed and unique automation concept FlexQube can offer robust and self-driving robotic carts. FlexQube has more than 1300 customers in 40 countries with primary markets being North America and Europe.

FlexQube's customers can be found within the manufacturing industry, distribution- and warehousing. We represent some of the most successful companies in the world with a significant share being represented on the Fortune 500 list. These companies exist within automotive, electric vehicle manufacturing, online retail, heavy-duty trucks, industrial automation and retail logistics.
