

FlexQube Wins SEK 3 Million Order

FlexQube has received a new order worth approximately SEK 3 million for the delivery of customized material handling carts to a global manufacturer with operations in Tennessee, USA. The order includes mechanical mother-daughter carts designed to support efficient and ergonomic internal logistics in demanding industrial environments.

Delivery is scheduled for the fourth quarter of 2025.

CEO Anders Fogelberg comments: *"This order highlights the versatility and strength of our mechanical cart solutions, where we combine modular carts with tugger train systems. It also confirms the growing demand for robust and flexible systems that reduce dependency on forklifts and manual handling."*
