About Hexicon

Hexicon develops wind power projects in deep water areas based on a patented technology for floating windfarms that enables generation of large amounts of renewable energy offshore. The company was founded in 2009 and has participated in development projects all over the world, including the world's largest floating wind farm off of South Korea. Floating wind power is considered a key component as the world moves from fossil fuels to renewable energy. Hexicon is listed at Nasdaq First North Premier Growth Market (ticker HEXI). Certified Adviser is FNCA Sweden AB, info@fnca.se, +46 (0) 8528 00 399. For more information, please visit www.hexicon.eu.
