Linjemontage receives an award decision of approximately SEK 1 billion over three and a half years from Svenska kraftnät

INSIDE INFORMATION: Linjemontage i Grästorp AB (publ) ("Linjemontage" or the "Company"), one of Sweden's leading pure-play EPC providers within power infrastructure, has today received an award decision in a public procurement process from Svenska kraftnät relating to the construction of a new 400 kV power line between Oskarshamn municipality and Nybro municipality (the "Project"). The Project runs over three and a half years and has an estimated contract value of approximately SEK 1 billion. The award for the Project is subject to a statutory standstill period, which means that an agreement may be entered into no earlier than ten days from today.

The project involves approximately 98 kilometres of power line between Ekhyddan in Oskarshamn municipality and Nybro in Nybro municipality, and aims to strengthen the transmission grid, increase capacity and operational reliability, and reduce the risk of power cuts in the region. In recent years, Linjemontage has been awarded several major transmission projects by Svenska kraftnät. Among other things, the company is responsible for the construction of the new 400/220 kV substations in Plenninge and Jälla, outside Uppsala, which form part of Svenska kraftnät's Uppsala package.

"The expansion and modernisation of the electricity grid is essential for industrial growth and Sweden's continued electrification. The new transmission line between Ekhyddan and Nybro strengthens electricity transmission in southern Sweden and helps balance supply across the region. This is one of the largest transmission projects we have been awarded to date and, together with our ongoing substation projects in Jälla and Plenninge, demonstrates our ability to deliver large-scale and technically complex high-voltage projects. We thank Svenska kraftnät for the continued confidence in us and look forward to applying our expertise and experience to building a stronger electricity grid." says Anders Åkerberg, CEO of Linjemontage.

The project is expected to commence at the end of 2026 and is scheduled for completion in June 2030. The works include, amongst other things, excavation and groundworks, foundation construction, the assembly and erection of steel pylons, cable laying, and the commissioning of the new facility.

The award decision regarding the Project is subject to a mandatory ten-day standstill period under the Act on Procurement in the Utilities Sectors (Sw. *Lag (2016:1146) om upphandling inom försörjningssektorerna*), which means that a contract may be entered into no earlier than after the standstill period has expired. During this period, the decision may be subject to review, and the outcome of the Project therefore cannot be guaranteed. The Company will inform the market of any changes in the Project process in accordance with the (EU) Market Abuse Regulation 596/2014 (MAR).

Press Release
27 November 2026 13:11:00 CET

During the fourth quarter 2026, Linjemontage has also been awarded six new contracts with a total value of approximately SEK 314 million, in addition to those already announced in press releases. That total includes an award decision of approximately SEK 132 million that is currently under standstill period, and will be separately announced when the contract is signed.

This information constitutes inside information as defined in the (EU) Market Abuse Regulation 596 /2014 (MAR), which Linjemontage i Grästorp AB (publ) is required to disclose in accordance with MAR. About Us
Linjemontage is a Swedish pure-play EPC provider within power infrastructure, enabling the modernisation and expansion of the Nordic electricity grid. The company provides turnkey solutions within substations and transmission and distribution networks, with capabilities across the entire project value chain and specialist high-voltage expertise up to 400 kV. The company currently has approximately 400 employees. Operations are primarily conducted in Sweden and Norway, complemented by a business branch in Croatia and an operation centre in India. Linjemontage was founded in Grästorp in 1993 and the company's shares have been listed on Nasdaq Stockholm since 2026. For more information, visit www.linjemontage.se

Forward-looking statements
This press release contains forward-looking statements that may relate to the Company's intentions, assessments, or expectations regarding the Company's future results, financial position, liquidity, development, outlook, expected growth, strategies, and opportunities, as well as the markets in which the Company operates. Forward-looking statements are statements that do not relate to historical facts and can be identified by the use of terms such as "believes," "expects," "anticipates," "intends," "estimates," "will," "may," "assumes," "should," "could," and, in each case, the negatives thereof, or similar expressions. The forward-looking statements in this press release are based on various assumptions, which in several cases are based on further assumptions. Although the Company believes that the assumptions reflected in these forward-looking statements are reasonable, there can be no guarantee that they will materialize or that they are correct. Since these assumptions are based on estimates and are subject to risks and uncertainties, the actual results or outcomes may, for many different reasons, differ materially from those indicated in the forward-looking statements. Such risks, uncertainties, contingencies, and other material factors may cause actual events to differ materially from the expectations expressed or implied in this press release through the forward-looking statements. The Company does not guarantee that the assumptions underlying the forward-looking statements in this press release are correct, and readers of this press release should not unduly rely on the forward-looking statements contained herein. The information, opinions, and forward-looking statements expressly or implicitly contained herein are provided solely as of the date of this press release and are subject to change. Neither the Company nor any other party undertakes to review, update, confirm, or publicly announce any revision to any forward-looking statement to reflect events that occur or circumstances that arise regarding the content of this press release, unless required by law or Nasdaq's Nordic Main Market Rulebook for Issuers of Shares.
