

# Coinbase, the world's largest regulated crypto exchange, selects Hilbert Capital as one of seven investment managers, to provide investment solutions to its global private wealth and institutional client base

## Hilbert's partnership with Coinbase SMA will accelerate asset growth of its investment strategies

Hilbert Capital, the asset management business of Hilbert Group AB (NASDAQ: HILB B), is seen as one of seven of the world's leading digital asset managers and has been selected by Coinbase as a day-one partner for its newly launched asset management platform, Coinbase SMA. Coinbase SMA enables institutional investors such as pension funds and private wealth managers, to access Hilbert's active investment solutions in a secure, transparent, and liquid format.

Richard Murray, CEO of Hilbert Capital says: "This is an important moment for the crypto investment management industry. In the same way that Lyxor, Man, Lighthouse SMA solutions enabled tens of billions of dollars of institutional assets to access traditional hedge fund strategies, Coinbase SMA does that in crypto. Hilbert is excited and humbled to be selected by Coinbase as a partner on this journey."

Niclas Sandström, CEO of Hilbert Group comments: "The partnership agreement with Coinbase is potentially, by far, the most impactful agreement in Hilbert's history. We expect this will rapidly and significantly increase the firm's asset under management in 2024, and hence our profitability".
