

Netel signs contract with Familjebostäder for ground and waterworks

Netel has won another new customer by signing a contract with AB Familjebostäder in Stockholm for ground as well as water and sewage work.

The assignment includes the expansion and replacement of the water supply system in the Kaggen 1 block in Tallkrogen, south of Stockholm. A central part of the assignment is to separate stormwater from the existing sewage system to relieve the network and reduce the risk of flooding in the area with over 160 apartments and 25 commercial premises. The assignment is to be completed in the fall of 2027 and is valued at just over SEK 14 million.

“We are very pleased to welcome Familjebostäder as a new customer,” says Jeanette Reuterskiöld, President and CEO of Netel. “We look forward to supporting Familjebostäder in developing their property portfolio and adapting their water systems to climate change with more extreme and unpredictable weather.”

About us

With over 25 years of experience, Netel is a leader in the development and maintenance of critical infrastructure within Infraservices, Power and Telecom. We are involved in the entire value chain from design, production and maintenance of our customers' facilities. We are dedicated to securing an accessible and reliable future, where technology unites and transforms society. Netel reported net sales of SEK 2,915 million in 2025 and the number of employees in the group is about 800. Netel is listed on Nasdaq Stockholm since 2021. Read more at netelgroup.com.
